

CHILD WELFARE PROGRAM WILL FEATURE LEGION CONVENTION

CAMPAIGN IN 44 STATES PLANNED

Meeting to Be Held Sunday Will Map Out Drive for New Legislation

By BERT FORD

Child welfare will be a big feature of the national convention of the American Legion which will open in Boston on Monday. Next to rehabilitation of disabled World War veterans, the welfare of their children is one of the highest aims of the Legion.

An important meeting will be held at 2:30 Sunday afternoon in John Hancock Auditorium. This meeting precedes the meeting of the convention Child Welfare Committee and the recommendations of that committee will be influenced in no small degree by the results of Sunday's child welfare meeting to be attended by all Legionnaires and members of the auxiliary interested in this vital Legion endeavor.

PLAN LEGISLATION

The meeting on Sunday is called to decide on a course of action to bring child welfare before legislatures in 44 states this year for corrective and improved laws or amendments for the promotion of child welfare.

The program Sunday will include addresses by officers of the Child Welfare Committee.

National Vice-Commander Mitt Campbell, famed throughout the Legion for his interest and work in child welfare; the auxiliary national child welfare chairman, Mrs. Wilma Hoyt; national child welfare representative of the "Forty and Eight," and the "Eight and Forty," honor societies of the Legion; and auxiliary, respectively, which have aided in the work; B. C. Patton, 1929-1930 department commander of Oklahoma, who will have as his subject, "The Oklahoma Department's Big Brother Program"; the Rev. Dr. George F. O'Connor of Dedham, Legion department child welfare chairman of Massachusetts, and who has been engaged in social work for many years; and others. Miss Emma C. Puchner, national director of the Legion's child welfare division, will be in attendance and speak.

OTHER SPEAKERS

From other national organizations will be heard Dr. H. E. Barnard, director of the White House conference on child health and protection, and from "Daddy" E. F. Felt, president of the International Society for Crippled Children.

Boston has already scored heavily in its convention plans. National officers were held in the city over the convention accommodations for executive operations. They were maintained in the vicinity that facilities at Horticultural Hall, which is the national headquarters, and other centers, are the finest ever provided for a national convention, and this wasn't blarney.

President Hoover will be given a welcome befitting his high office when he arrives in Boston Monday to speak at the opening of the convention in the Arena.

Arrangements for his reception are completed today. He will go to the Copple House from the train and leave the hotel in time to address the convention at 11 o'clock.

He will be tendered a luncheon by the American Legion and the American Federation of Labor.

With the opening of convention headquarters in Horticultural Hall activities were thrown into high gear.

DETAILS WORKED OUT

Details of the gigantic undertaking have been worked out with military precision and efficiency. It is a staggering job to stage a parade that will be 28 miles long and take eight or 10 hours to pass, to find quarters for 75,000 guests, and all the mass of accompanying preparations, but it has been accomplished in a manner that promises to make the 1930 "powwow" the biggest yet.

O. L. Bodenhamer, national commander, isn't expected until Thursday. When the 40 other Legion and auxiliary national officers arrived from Indianapolis yesterday they announced that the national commander and a skeleton staff would attend at national headquarters to attend to routine business for a few days.

Today, in the next column of the classified Ads, you will find names of representatives for available legislation.

Legion Housing Committee and Forty and Eight Workers Busy as Convention Days Near

LEO M. HARLOW WILLIAM T. MARTIN MARTIN HAMILTON ARTHUR D. WHITE WILLIAM T. MARTIN THOMAS A. FLAHERTY

THE HOUSING JOB is the big job. Here we have, left to right, Leo M. Harlow, chairman of the housing and seating committee; Martin Hamilton, chairman of sub-committee; Arthur D. White, vice-president of the sub-committee, and standing in the back is William T. Martin, secretary of the committee, as Eight) for the headquarters of that society of World War fame, whose members are arriving for the American Legion national convention. (Staff photo.)

Stunts and Races for Legion Air Show

By GEORGE HAMBLEN

The official program of the eight-day American Legion air show, to start at Boston Airport Saturday, was announced today by Maj. Louis E. Boutwell, chairman of the Legion air committee. Almost all the nationally known fliers are expected to attend.

Several thousand dollars have been donated by the city of Boston for the airport. Saturday, the prize will be awarded on the basis of the most attractive looking airplane, best looking flying, and the most expert flying. This is the first time this award has been given in this country.

A parachute drop will be held each day and during the flying feature the daily program.

DIRIGIBLE COMING

The navy dirigible Los Angeles and the blimp Mayflower have been assigned to the airport. Indications are that the show will present the largest assemblage of airplanes ever seen in this part of the country.

"Miss America of the Air" will be selected Sunday from women fliers from all parts of the country. The prize will be awarded on the basis of the most attractive looking airplane, best looking flying, and the most expert flying. This is the first time this award has been given in this country.

A parachute drop will be held each day and during the flying feature the daily program.

SPEED RACES

Speed races will be held for planes ranging from the smallest commercial ships to the largest military and naval craft.

Mayor Curley will officially greet the visiting Legionnaires on Monday when he announces the winner of the Miss America of the air contest.

The official program follows:

SATURDAY
1:00 p. m.—Formation of Commercial Transport Plane.
1:15—Passenger Carrying.
1:30—Biplane Carrying Planes (10 p. m. or less).
1:45—Biplane Flying.
2:00—Passenger Carrying.
2:15—Special Feature (to be announced).
2:30 to 3:30—Band Concert—Arrival and Departure of Blue America Plane.
2:45—Biplane Flying.
3:00—Parachute Drop.

SUNDAY
11:00 a. m.—Passenger Carrying—Tilted Wings.
12:30 p. m.—Miss America—Parade and Race for Commercial Plane (200 h. p. or less).
1:00—Passenger Carrying.
1:15—Bomb Dropping—Miss America Band Order Marching.
1:30—Passenger Carrying.
1:45—Bomb Dropping.
2:00 to 3:00—Band Concert.

MONDAY
12:30 p. m.—Puppet Attack and Bombardment.
1:00—Miss America—Accuracy Landing.
1:15—Band Concert.
1:30—Band Concert—Arrival and Departure of Blue America Plane.
1:45—Biplane Flying.
2:00—Award of Prizes for Miss America of the Air.
2:15—Passenger Carrying.
2:30—Bomb Dropping.
2:45—Biplane Flying.
3:00—Night Flying by Lighter-than-Air.
Passenger Carrying by Dirigible "Mayflower." Weather Permitting.

Today, in the next column of the classified Ads, you will find names of representatives for available legislation.

Cool Weather to Stay Another Day

Fair and continued cool weather tonight and Wednesday was the unofficial forecast of the weather man today.

Although the sky was overcast in places, no storm was in sight and normal fall temperatures were expected. The official reading at 6 o'clock was 57, as compared with yesterday's maximum of 58.

The minimum during the night was 53, although in the suburbs, particularly in Middlesex County, unofficial readings of lower temperatures were taken.

Wife Dying After Attack With Axe

Washington, Sept. 30 (AP)—Mrs. Richard B. Creecy was barely alive today at Emergency Hospital, where she remained unconscious since the tragedy at the Mayflower Hotel Sunday in which police have decided her husband, Lieut.-Col. Richard B. Creecy of the Marine Corps, attacked her with a hatchet and shot himself dead with a revolver. Attendees said her chance to survive was slight.

Colonel Louis M. Little, chairman of the Marine board of inquiry into the case, suggested the marine officer had committed the deed in a fit of insanity, saying the board had heard reports "which would link up with that condition."

Americans Unable to Leave Changsha

Shanghai, Sept. 30 (AP)—Unconfirmed reports from Hankow today said American and British residents of Changsha were planning to evacuate for the winter because of the Communist menace there, but the Yangtze River was low neither foreign gunboats nor commercial ships could reach Changsha, thereby leaving the foreigners isolated.

Wild Deer Killed by Virgin Islands Poor for Living

St. Croix, Virgin Islands (AP)—So acute is the financial pressure among the poor of this island that a slaughter of wild deer has commenced. Venison is offered for sale in local markets despite game laws and sentiment against pot hunting.

Maine Moose Meat Costs Him \$100 Fine

Dexter, Me., Sept. 30—Irving M. Grey of Charleston was arraigned in municipal court before Judge Arthur W. Stone, charged with unlawful possession of moose meat. He was fined \$100 and cost of \$25.50.

Study Plan to Make Highways Safer

Pittsburgh, Sept. 30 (AP)—The reckless driver and the "driven wreck" were the main targets of the National Safety Congress and Exposition today as safety experts sought ways and means of making traffic on the nation's highways less dangerous.

This was a new record for the event and surpasses the total for the United States Open this year at Interlachen.

For the amateur, 3991 six-day tickets were sold and 16,363 daily tickets.

\$55,000 Gate for Merion Golf Tilt

Philadelphia, Sept. 30—The gate receipts for the national amateur golf championship tournament at the Merion Cricket Club, won by Bobby Jones, were \$55,670, officials announced.

This sets a new record for the event and surpasses the total for the United States Open this year at Interlachen.

For the amateur, 3991 six-day tickets were sold and 16,363 daily tickets.

RELAPSE FATAL TO BIRKENHEAD

London, Sept. 30—Frederick Ed-ward Smith, first Earl of Birkenhead, died today after an extended illness with bronchial pneumonia. He was 58 years old.

His crowded political life included a role as prosecutor of Sir Roger Casement, Irish leader, who was hanged for treason; Lord Hugh, Chancellor and Secretary of State for India.

Lord Birkenhead had not been a well man since last April when he broke a blood vessel while golfing at Biarritz.

Lord Birkenhead, both as a political figure and authority on international problems, was an outstanding figure. Among his numerous published works are *Treaties of International Law*, *The Status of Merchant Vessels in Wartime* and others. He recounted both his visits to the United States in 1910 and 1924, respectively in 1925 and 1926.

With Lady Birkenhead, a son, Viscount Purbeck, and a daughter, Eleanor, survive.

The earldom passes to the 22-year-old Viscount Purbeck, whose courtesy title was a subsidiary honor which the earldom was conferred in 1922.

\$750,000 for Art Works at Auction

Berlin, Sept. 30—Exceptionally high prices, reaching a total of \$750,000, were paid for rare paintings and statuary when the famous art collection of Dr. A. E. Fugor of Vienna went under the auctioneer's hammer yesterday. Much of the treasures are destined for America.

Amateur Photographers!

Beginning today the Boston Evening American will pay \$2 each for every amateur picture reproduced in the Boston Evening American.

This will be in addition to \$10 paid for the best picture of the week. Thus an amateur may receive not only a \$2 daily award, but also the \$10 weekly award.

Pictures that are essentially interesting, preferably of a news or semi-news value, will receive first consideration. Clearness of copy is of primary importance. Only pictures by amateurs will be considered.

Send or bring all pictures to the Picture Editor, Boston Evening American, third floor, 5 Winthrop sq. No photos will be returned unless accompanied by a self-addressed and stamped envelope. Try to get action pictures of events while they are happening—accidents, fires, or attractive pictures of animals or children. If it is an accident picture, call the News Tip Editor, Liberty 4000, tell him you have the picture, and then hurry to the American office.

Amateurs, get busy. Here is real money!

DARROW FREES TWO 'ENEMIES' OF CHICAGO

Chicago, Sept. 30 (AP)—Clarence Darrow stood up in court yesterday for two "public enemies" and got them out on bond in five minutes. He termed the arrest of the "enemies"—George (Red) Barker and William (Three-Fingered Jack) White—as "outrageous."

"If the authorities wish to harass the lawless," he said, "they should do it legally. There is no such charge in law as a 'public enemy.'"

"The vagrancy law, under which Barker and White were arrested, provides for release under \$100 bond," Darrow said, "yet men are being charged with vagrancy and made to furnish \$10,000 bonds."

Darrow has been in retirement from the law for two years. He said he agreed to take the case of Barker and White because he always had been close to labor unions.

The surrender of White, a former convict, and Barker, who also has served a prison sentence, Sept. 20 of the 26 "public enemies" still unaccounted for. Vagrancy warrants have been issued for all of them.

Judge Lyle, who signed all the warrants, heard last night that the "enemies" had been marked for murder. A Negro reported he had overheard three men in a South Side saloon discussing a plot to assassinate the judge.

GERMANY CUTS HIGH SALARIES

Berlin, Sept. 30 (AP)—A drastic slashing of government expenditures, involving sale of state-owned public officials and employees, beginning with President Von Hindenburg, are features of Chancellor Brüning's new financial program, announced today.

A halt to the upward march of wages weighing on industry and a decision to determine to restore German and foreign confidence in the nation's financial future, also are planned.

2 ARRESTED IN FIRE MYSTERY

Worcester, Sept. 30—Alexander Emilianos, 32, of Denny st., proprietor of a betting plant in Elm st., and Peter Suparian, 50, of Common st., were under arrest today in connection with the blaze.

The two men, taken into custody by local police, were to be turned over to Marlboro authorities for appearance in the district court there.

The building, a soft drink establishment, was only four years old. It was owned by Helen Aulacore of Broad st., Marlboro, who leased it to Emilianos, according to police. The loss was estimated at \$3000.

The fire was of suspicious origin and an investigation was started.

Coste, Bellonte Get Texas Cash Oct. 17

New York, Sept. 30 (AP)—Col. W. E. Eastwood, Jr., Dallas, Tex. banker, announced today the presentation of the \$25,000 prize to Diomedes Coste and Maurice Bellonte for their Paris-Dallas flight has been postponed till Oct. 17. He said the fliers telegraphed him from Los Angeles, saying they would leave their tour here Oct. 1.

Princess Elizabeth Measured for Tartan Kilt

Balmoral, Scotland, Sept. 30 (AP)—King George's little granddaughter, Princess Elizabeth, has been measured for her first kilt. It is to be made of the Inverness tartan.

The kilt, though little known, is not new; it was designed by an old lady who lived at Inverness in Queen Victoria's time.

It gave its name to the fact the Duke of York, who has adopted it, is Earl of Inverness.

What can be done with Life Insurance

(3) Planning an Income for Old Age

SOONER or later all must lay down the law to active work and retire. Who would not like to see the declining years would be spent in comfort and ease? However the period of his life might be.

We need to think seriously along these lines—no plan constructed to give you peace of mind. Make to take care of ourselves. The John Hancock Mutual Life Insurance Company offers Life Insurance with a variety of plans. It is the only company in the world that is a part of the retirement problem.

Toads Found Alive After 300 Years in Indian Mound

Oklahoma City, Okla., Sept. 30 (AP)—Three toads taken alive from an Indian mound in northwestern Oklahoma, where scientists said they probably had been imprisoned for three or four centuries, were on display here today at the State Historical Society Museum.

J. B. Thoburn, curator of the Historical Society, said the age of the amphibians depended largely on the origin of the mound. If the elevation was made by hand, he said, it is probable the toads were imprisoned 300 or 400 years. If it was of natural origin, the age of the toads might be even greater.

Thoburn and two other archaeologists made the discovery while excavating a mound, believed to be

the ruins of an Indian pueblo. The toads were found with lips and eyes sealed. Thoburn said, but within a few moments after being liberated hopped about with agility. The toads probably will be turned over to the biologists at the University of Oklahoma for observation, Thoburn said.

Betty Nuthall Holds Reception on Liner While Still in Bed

Plymouth, England, Sept. 30 (AP)—Admirer of Betty Nuthall, British tennis star who returned home today from American conquests, invaded her cabin on the Muretanka today to congratulate her on bringing the American tennis title to England. Betty was not out of bed and she was not quite sure she should ask her visitors in.

"We had better let the stewardess come in, too, she said.

"The women of England seem to be upholding the tradition right now and I make me so happy to think I've done a little bit too."

WARD MUSEUM HIT BY FIRE

Rochester, N. Y., Sept. 30 (AP)—Scientific specimens from every part of the world, many impossible of replacement, were damaged or destroyed today by a fire which swept Ward's Natural Science establishment.

Priceless geological and anatomical specimens, the accumulation of more than 60 years, were lost. The damage was estimated at \$200,000 by Frank Ward, director of the establishment.

Ward's museum was famous throughout the world for its rare collections. It was founded in the 60's by Henry A. Ward, who was killed in an automobile accident in Buffalo in 1906.

Film Companies in \$10,000,000 Merger

Los Angeles, Sept. 30 (AP)—Merger of the Metropolitan Sound Studio, Inc., and the Christie Film Co. was announced today. The new organization will be known as the Metropolitan-Christie Picture Corp. with capitalization of \$10,000,000.

Elevator Bar Slips Away When Raiders Call

Stout City, Ia., Sept. 30 (AP)—Police were positive there was a bar at the Idaho Inn. A sleuth had seen it, and had seen men leaning against it familiarly, and drinking libations of undoubted anti-prohibition potency.

The police raided the inn. There was no bar there.

Another sleuth reported seeing

the bar. Again police missed. Again they found no bar. And again. And again.

This might have continued indefinitely. Police Chief Morgan, however, finally found out about it. The bar was in a freight elevator. Every time the place was raided, the bar and all the customers were simply hoisted above or dropped below.

Even the police admitted it was a pretty slick trick.

Griffiths' Suicide

Due to Inanity

Alexandria, Egypt, Sept. 30 (AP)—Verdict of suicide while temporarily insane was returned today at the inquest into the death of Sir John Norton Griffiths, found shot to death last Saturday.

Lieut.-Col. Griffiths, engineer and soldier, was governing director of the Norton Griffiths Company.

Waltham Building Gains Over Month

Volume of building operations in Waltham during the present month was nearly twice that of the previous month. The total value of permits issued this month is \$18,365, while last month the value was \$78,000.

Polls in Boston

Open Until 3 P. M.

Boston voters may cast their ballots until 3 o'clock at night in the State election of Nov. 4, under a closing hour adopted yesterday by the City Council.

Under the State law the polls will open at 6 a. m. on that day.

Demand for the late closing was made by City Councilor Peter A. Murray, Jamaica Plain Democrat. Dr. Seth P. Arnold, Back Bay Republican, insisted that if 8 o'clock were to become a fixture in Boston, it might be well to ask the Legislature next year to permit a later hour for opening the polls to shorten the voting day.

POWER FROM FIFTEEN MILE FALLS GOES TO WORK TODAY

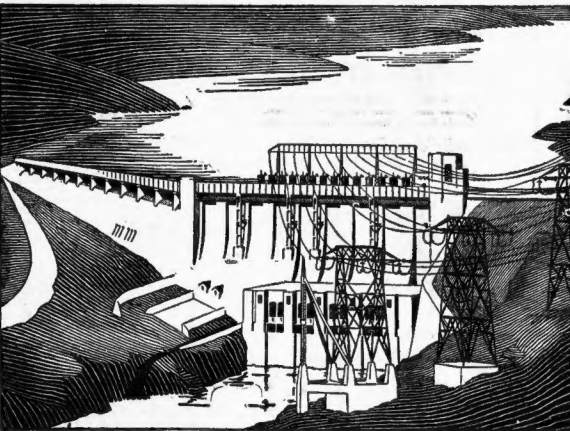

PRESIDENT HOOVER, at his desk in the White House, turns a golden key—Click! In a twinkling, the impulse, carried 700 miles to northern New England, throws a switch in the power house of New England's newest and greatest hydro-electric development—huge water gates open—through massive penstocks the torrent roars—water wheels turn—transformers hum—and the strength of a mighty cataract, which for centuries has run unharmed to the sea, is made ready for the industries of growing New England.

Fifteen Mile Falls, newest unit in the New England Power Association's far-flung system, "goes on the line" this morning. Engineering skill has met and conquered, in two years, the vicissitudes of New England's climate, the uncertainties of a great river. The "big job" is finished—and finished on scheduled time.

The Connecticut River, between Barnet, Vermont, and Monroe, New Hampshire, drops 350 feet in a stretch of 15 miles. Hydro-electric engineers estimate that this "head" can produce in excess of \$75,000 horse power. . . . More than half this potential energy is to be developed in the plant dedicated today.

Power from Fifteen Mile Falls will be made available, first of all, for the industries and homes of New Hampshire and Vermont. The surplus will

come south, stepped up to 220,000 volts, over a double steel tower transmission line, 126 miles long . . . with its terminals at Tewksbury, Mass. Thence, it will be redistributed, to Boston, over the lines of The Edison Electric Illuminating Company, and to the west and southwest over the New England Power Association's own network.

Today's event is of more than passing local interest. It marks another great stride toward assuring ample and dependable power, at reasonable cost to the consumer.

Thus, the New England Power Association passes

another milestone in its history . . . It is now the largest of New England's electric utilities. Its rapid growth has demonstrated the value of inter-connecting lines, of the inter-dependence between the water power in our streams and the steam power generated at tidewater where fuel is cheap and plentiful.

An animated model of the Fifteen Mile Falls plant, which brings out engineering features with great fidelity of detail, is now on exhibition at the Tenth Anniversary Industrial Exposition of the Associated Industries, at Mechanics Hall, Boston.

News of Society Circles and Current Events Among Women's Clubs

New Game Thrills Society Folk on North Shore

MURDER! THAT IS SOCIETY'S latest indoor sport. At a recent party on the North Shore small slips of white paper were placed in a hat and numerous guests were requested to draw one. On one slip was the word "murderer." Immediately all of the lights in the house were extinguished and the fun began. Everyone was allowed to wander about at will in the dark until one of the number was grabbed by the throat and "murdered," counting 30 afterward to allow the murderer to get away. Of course, there are plenty of laughs and screams until the lights go on when an investigation is held.

A DETECTIVE IS CHOSEN and he commences to question everyone as to where they were at the time of the murder. Only the murderer is allowed to evade anything but the truth. It is a clever game when well played and quite exciting. We learn that Betty Barrett was "murdered" the other evening and the villain was Hiram, Polson, Froble, Motley, Edward MacNichol, Mr. and Mrs. Grafton Smith, Mr. and Mrs. Paul Rust, Mr. Paul Bates, Miss Francis Goodwin, Mr. Newell Hunt, or Allen Whitely. The scene of the crime was at the Goodwin home at Hamilton.

Miss Mary Emery to Be Honored at Dance October 18

MRS. MANNING EMERY, JR., has cards out for a small dance on Saturday, October 18, at her home in Framingham, for her daughter, Mary. There appears to be no other debutante party that evening, which is fortunate. Many dates are conflicting, especially November 8, the night of the Ronald Lymans' dance for Miss Charlotte at their historical house, 39 Beacon st. This falls on the same evening as Mrs. Theodore Little's dance for her daughter, Miss Peggy, at the Country Club.

ALSO ON THE SAME NIGHT of the DeNormandie's dance in South Lincoln, for their daughter, Miss Ellen, comes Mrs. Amor Hollingsworth's exclusive dance for her daughter, Miss Evelyn, at the Dedham Polo and Country Club. There are many dinner parties before the Lymans and Hollingsworth affairs. On October 8, the J. Lewis Emerys' dance in Milton falls on the same date as the Beverages' dance for Miss Griswold of Philadelphia, cousin of Miss Ellen's, at Beverly Farms.

MR. NATHANIEL AYER has cards out for a dance tomorrow at his Beacon st. house for his two nieces, Miss Frances Thompson of New York and Miss Nancy Ayer of Milton. Their presentation is on October 7 at a tea in Milton at the Dr. Ayer's.

MR. THOMAS G. STEPHENSON'S Ark at Orono, Cape Cod, is the center of much social activity. Mr. Rudolph Agassiz and Mr. Arthur Bell were guests last week. Mr. Stephenson is an uncle of Miss Edith Welcott, who has been visiting him lately; also his nephew, Henry Salmonell, has been entertaining a house party of boys at the Ark.

MR. AND MRS. JOHN JACKSON HILL, JR. (Elizabeth Heath), are receiving congratulations on the birth of a daughter at the Wyman Hospital in Cambridge.

Newlyweds Will Occupy Remodelled Beacon Hill House MR. AND MRS. VAN NESS BATES (Eleanor Bates) are moving up on Beacon Hill to 138

Secrets of Prosperity Learn the WILFRED SYSTEM of beauty culture now and be prepared to accept good paying positions in high grade beauty shops. While mercantile shops have shown a great falling off in their business during this period of financial depression, statistics show that the beauty shop industry has increased most business. Decide now to become part of this prosperous profession. The Wilfred system winning instructors prepare you for good positions in beauty shops. One and evening classes. Easy payment terms. Visit our instruction obligation. Get free illustrated book "A" and "B."

Wilfred Academy of BEAUTY and BEAUTY CULTURE 492 Boylston St., Boston Telephone 7284 Also New York, Philadelphia, Newark

Myrtle st.; a charming old house which has been restored and divided into three modern apartments, with pent house and roof garden in the New York manner. Three newlyweds will live in them this winter. Mr. Hugh Montgomery and his bride and Mr. and Mrs. Lovell Thompson (Katheryn Simonds). The Montgomerys and the Thompsons are still in Europe but will return shortly.

MR. AND MRS. JOSEPH F. WOODS of Chestnut st. are visiting Mr. and Mrs. Henry Pimman of Cohasset.

MISS HELEN BEAMORE, WHO is engaged to Mr. John Collings, is to finish her course at Lowthorpe School at Orono and in June the wedding will take place.

MR. AND MRS. FREDERICK W. EATON and their daughter, Miss Dorothy Newman, are staying late at their estate in Concord before coming into town. The Eatons are giving several "bag" dinners at the Chilton Club.

MR. SAMUEL FELTON is giving a dinner for Miss Barbara Bremer before the Beveridge's dance on Oct. 8.

CAROLINE READ and FRANCIS APPLETON HARDING, who are to be married on Oct. 8, are taking a motor trip in Europe for three months. On their return they will live at an apartment at 62 West Cedar st., Beacon Hill.

MR. AND MRS. WALTER SCOTT BLANCHARD of Boston are staying at the Weylin for a few days after leaving their place at Hewitt, L. I.

MR. AND MRS. A. RICHMOND PARKER are hosts at a tea to be given this afternoon at their home in Bridgewater in honor of Mrs. Charlotte Blanchard and Ware. A reception to Mrs. Ware takes place in the pine room of the house, which is an old colonial one built in 1780. Members of the East Bridgewater Garden Club are specially invited. Tea is to be served in the old-fashioned garden to the accompaniment of old-time music.

Italian Women to Hear Discussion of Civic Activities

Civic affairs will be discussed at length by Mrs. Colin MacDonald, vice-president of the Democratic state committee and Boston election commissioner, before the members of the Women's Italian Club of Boston tomorrow at the Hotel Vendome at 1 p. m. The afternoon will be the first open meeting of the season, and of the program Mrs. Tancrè Ferretti, chairman of the club's civic committee, is in charge. Later in the day a musical entertainment will be offered by Mrs. Felix Fortis is the afternoon's hostess.

Choral Group Will Open 10th Season at Meeting Monday The Medford Singers' Society begins its 10th year next Monday at 7:45 p. m. in room 11 of the Central Building, Medford sq. Mrs. Charles E. Miller announces. The society is to give two concerts in Medford this season, the first some time in January, the second in April.

Towards the success of these two affairs, the membership rehearses religious every Monday under the direction of Arthur B. Keene. This group of singers has attained considerable success in past years as well as serious recognition in musical circles.

Other officers include Mrs. Alice J. Blake, first vice-president; Mrs. Winifred Sawyer Smith, corresponding secretary; Mrs. E. Faye Child, secretary; and Chester G. Ames, treasurer.

Ex-Harvard Player to Wed Peggy Phipps

New York, Sept. 30—Miss Peggy Phipps, granddaughter of the late Henry Phipps, one-time partner of Andrew Carnegie, will be married Thursday in Garden City, N. Y., to J. Gordon Douglas, Jr., former Harvard football player. It was announced today.

MISS FRANCIS GOODWIN, daughter of Mr. Augustus F. Goodwin of Hamilton, entertains frequently at her parents' home, Brackenside, on the North Shore. Miss Goodwin will dress as a colonial lady at the society ball on October 17 at Boston Garden.

Reunions to Open Club Year

Social Programs Are Planned by Two Boston Groups for Next Monday

By NANCY BREWSTER Among the club openings scheduled for next Monday are those of the South End Women's Club and the Boston Ruskin Club. Both meetings will serve as club reunions and social programs have been planned in each club.

Mrs. George W. T. Dowling, re-elected president of the South End organization, will not only preside over the business session, but as hostess later in the evening. Members of the club meet at 8 p. m. in the clubrooms at 20 Union park.

Announcement is made of the series of whist for the benefit of the clubhouse fund, the first to be held Monday, October 13, at 8 p. m. at the clubrooms now in use. Mrs. S. S. Sutcliffe is chairman of these affairs.

The Ruskin Club, which devotes its programs to reminiscence stories about John Ruskin, study of his work and lectures on the subject, starts the season with a talk on "The Beautiful Friendship of Ruskin and Golden Age." This is to be given by Miss Lillian Whiting, author and world traveler, in the lecture hall of the Boston Public Library.

A musical program will be presented by Mrs. Alice Wentworth MacGregor, chairman of the musical department of the club. Members are asked to note the change of opening date. This because October 13 is a holiday in the city.

Other reports will include those of the chairman of welfare work, Mrs. Gertrude E. Miller; treasurer, Mrs. C. L. Blackmer; Mrs. Lila E. Kelly, president, will preside over the session.

"Neighbors' Day" Is Planned by Club Group in Woodbourne

The Woodbourne Women's Club begins a year of serious activity October 3 with a program headed by "Neighbors' Day." Organized in Woodbourne, February 19, 1926, for mental stimulation and community service, the club is today led by Mrs. William H. Prescott.

The new year book is carried in the club colors of blue with gold lettering enumerating the meetings of the year, the various programs, and the club membership. The meetings are held the first and third Fridays of each month, from October to April, inclusive, at the Upham Memorial Church. For the opening meeting, Mrs. Francis B. Reeves and Mrs. Wallace Alexander are the hostesses.

The North Scituate Welfare League will open its season Thursday, with a luncheon-meeting supervised by Mrs. Fred Chase, chairman of the department of public health.

Mrs. Chase will have the assistance of these club members: Miss Madeline Reed, president; Mrs. Herbert Wilder, chairman of the American Home; Mrs. F. H. Merrill, chairman of the Girl Scout committee; and Mrs. Russell Wilder, chairman of the literature committee.

New Ensemble of Practical Usage

BY ANN ARDEN

THE FULL-FLEDGED college girl knows the value of ruffles—in their proper place. She knows, also, that a bit of boyishness in her everyday clothes is proper and becoming. So she chooses, often this season, the jumper frock that has carried over from summer's golf and tennis days. Manifestly practical, it is also immensely smart in new wrinkles.

IF CHECK-UPS at Eastern and Midwestern colleges reveal the prevalence of any sort of uniform, this uniform will be the jumper dress.

CONSIDER its flexibility! Sweaters, polo shirts, tailored cotton blouses and sheer knitted blouse may be worn with it. And therein lies the variety that is the spice of the whimsical college girl's existence!

THE PRESTO-CHANGE potentialities of the dress are attributes, distinctly. But its original make-up this jumper outfit is too charming to tamper with—at least for the first few weeks of college.

THE NEW tweed suspender suit is the costume pictured. Of green and beige checked wool, the jumper dress is worn over polo shirt of fine wool tanned beige, with short sleeves. The coat buttons tightly to the side, has wool beige cuffs, and a smart belt of green suede. Green gloves and shoes are carried, and the hat is of green felt, draped to long back line, and held by perky little bow of black galaxy fur.

LET US be plain about tweeds. No fancy patterns are allowed. A small fleck now and then adds interest and piquancy to this new rich fabric. But even so, let the fleck remain infinitesimal. The good old mixtures of other years appear every now and then, but they are not quite so good as the monotone or flecked type.

THE WAISTLINE has settled into place after a hectic period of changing fashions. This fall, belts of fur and fabric and leather will be placed at the natural waistline or a bit below. This is a becoming line to most figures and much less trying than the Empire style, which insists on almost extreme slimness.

BOYDEN TO FIX U. S. CLAIMS ON GERMANY

The Hague, Netherlands, Sept. 29 (AP)—American claims for damages suffered from German secret agents before entry of the United States into the war passed today into the hands of the Umpire, W. Boyden of Boston at the close of a long hearing before the mixed claims commission.

The American commissioner, Robert Bonyngs, concluded his reply to German arguments today by saying America had not wished to believe that such crimes as spreading disease germs and blowing up factories in a neutral country could have been committed by Germany's officials.

"Every normal man," Bonyngs declared, "would have wished to believe that in this 20th century of Christianity that would be impossible. President Wilson could not believe it at first."

He said it seemed hardly credible at the outset that in this age any nation could commit such acts against a friendly power, but finally the evidence became too convincing.

The German representatives, Bonyngs asserted, and their government had not knowingly concealed or withheld anything and had loyally held this commission in finding the truth and that Germany had clean hands.

"Could Germany claim to have clean hands when it was established that she was guilty of the grossest infringement of the laws of humanity and humanity?" he asked.

Federal Grand Jury Report Due Soon

The Federal grand jury was in session today in the Federal building. A report is expected shortly.

The Weather

For Boston and vicinity—Fair tonight and Wednesday; slightly cooler tonight; moderate to moderate west and northwest winds. Missing 100 Days

Opens School

MISS ELIZABETH MORROW, daughter of U. S. ambassador to Mexico, opens her Little School today in Englewood, N. J., with 40 pupils ranging from 18 months to 5 1/2 years in age.

Englewood, N. J., Sept. 30 (US)—School bells will ring today in the new school here under supervision of Elizabeth Morrow, elder daughter of Ambassador Dwight W. Morrow.

In nine rooms of the old Vanderbeck home, Miss Morrow and her staff of six assistants will welcome about 40 youngsters of two to six years old.

BANKER VISIONS BUSINESS GAIN

Cleveland, O., Sept. 30 (AP)—Signs of an upward turn of business recently have appeared, and factors creating the upward turn should have the wisest co-operation the banker can provide, John O. G. Londale, president of the Mercantile Commerce Bank and Trust Company of St. Louis and president of the American Bankers Association, said today.

Londale addressed the opening of the general sessions of the association.

Some of the indicators are the increased credit operations of banks this month, increased purchases by the public, increased employment in many factories, and accelerated speed of some factory wheels, he said.

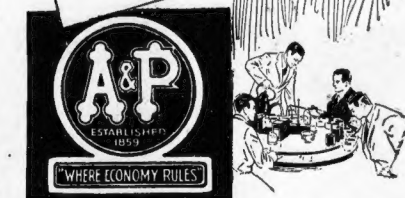

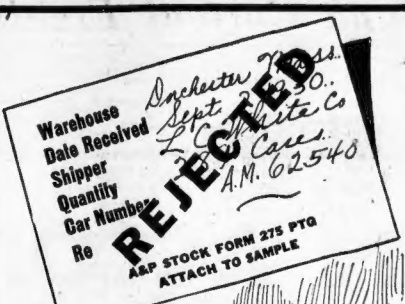

But for the banker to co-operate he must encourage the farmer injured by the drought, the manufacturer who finds costs high because of obsolete machinery, the property owner with buildings in need of repair, the renter who wants to be independent of his landlord, and the merchant whose store needs improvement.

He recommended scientific research for new uses of farm products. Diversified production, he said, should be encouraged.

SAILOR AVENGED DEATH ON WHALING SHIP

Between lectures at the captive whale exhibition at Stuart and Tremont sts., Capt. A. E. Folger, veteran New Bedford whaler, entertained newspapermen with some of his colorful yarns of early whaling days. One of the most interesting dealt with a mutiny, and it is retold here in Capt. Folger's own words.

"You boys want to know about mutinies. Well I'll tell you one that is a humdinger. Wait until I show you something first."

Opening the glass case that houses the 55-foot captive whale, he reached in a hidden drawer and pulled out a wicked looking whaling knife with a razor-like edge.

"Here this knife," he continued. "Well it was used with deadly effects on one of the mutinous sharks that ever signed up for a whaling trip."

"THERE WERE ALWAYS 22 men and five officers on a full manned old whaling ship, and as a general rule there were sure to be one bad man in the lot. Sometimes he was an officer, sometimes a plain sailor. On the whaler Maria of New Bedford one trip we had as hard a battle as I have ever met. He was his second mate. My good friend, Mr. E. R. Francis, of Edgartown, had the misfortune to fall ill, and as he lay at the point of death that every second mate ordered him on deck and ordered him to make a run—seven strokes of rope were laid on his back used to do their work. It is said to keep sails from chaffing."

"THE POOR FELLOW made it the best he could and as he finished he fell over dead. Well, gentlemen, this was too much for the rest of us. At night we armed ourselves with harpoons, knives and other whaling gear and stormed the captain's cabin, with a demand that we be allowed to murder the mate as we saw fit."

"Then we learned that the mate had disappeared. The next morning his body was found with a whaling knife in his heart. A big Norwegian sailor and killed him. At Valparaiso we were all hoisted before a judge and jury, and after hearing the evidence the jury brought in a verdict of not guilty."

"Yes, boys, whaling in the old days was a rough lot for a man."

GAYETY BILL GOES BIG

"Whoopie Girls" opened yesterday at the Gayety, offering songs and dances which went over with a bang. The show kept the audience laughing until the final curtain. The big season gave full scope to Charles "Red" Marshall, Jerri McCausley and Emily Earl. The last of these three stars was the star with Clark and McCausley, and was remembered by many of the audience who gave her a cordial greeting.

The chorus is a hit. Several members proved their ability by stepping out of the ranks and offering a little specialty.

Willie Gordon, Gladys Nichols, George Walsh, Joe Lang and Rex Leane won the plaudits of the audience. Colorful jazz sounds with their overblowing chain of nothings, was another feature.

HOWARD GIVES SNAPPY SHOW

At the Old Howard this week is a top-notch vaudeville bill in addition to the Mutual burlesque attraction known as "Fine Feathered." The acts include the Five Harmonies, Tom McAlister, armless golfer, and the Cole Brothers.

With the burlesque organization is the clever Margie Bartel. She handled her subterfuge role sweetly and she did much to put pep and zip into the entire production. Art Gardner and Harry Levine added merriment with their antics. Mildred Hoffman, as the prima donna, was a state-of-the-art beauty.

Others of the feminine contingent were Leonora D'Almeida and Babe Day, Arlie Brooks, Jack Sherman Fields and Smith and Fields pleased. The "Story Book" number was spectacular.

The picture bill offered "Hurricane," with Hobart Bosworth, and "They Learned About Women," the midnight show comes on Friday. World Series returns will be given every playing day. Next week will be "American Legion" week.

"Up the River"

"Up the River" will have in its cast Richard Kene of the black-face team of the Fox. John Ford is to direct for Fox.

Paramount Acquires "Farewell to Arms"

The scramble to secure the film rights to Ernest Hemingway's novel, "A Farewell to Arms," has been won by Paramount, the price being somewhere near \$50,000. Gary Cooper will play the lead, in all probability, and it is expected that Lewis Milestone will direct. This will be one of Paramount's biggest pictures of the season.

"Cimarron"

Production has been started on "Cimarron" at the Radio Pictures studios. Richard Dix is starring with Irene Dunne as the feminine lead.

Directing Comedy

George Marshall will direct the next Nick and Tony two-reel comedy to be produced by Lou Brock for RKO release.

Four Foreign Versions for Fox's "Big Trail"

Fox's "The Big Trail" will be made in four foreign languages, with Spanish and French versions first on the list. It is announced by John Stone, in charge of foreign production at the Fox studios. This is understood to be the first step in an extensive foreign talker production schedule.

Estelle Winwood Plays in "Scarlet Sister Mary"

Estelle Winwood, the English actress who has starred in several plays in this country and in England, but who retired from the stage a few years ago, returns to the theater to act the role of Cinder in "Scarlet Sister Mary," the play made by Daniel Rood from the novel by Julia Peterkin, in which Ethel Barrymore appears. Miss Barrymore

met Miss Winwood at a luncheon in London last summer and told her she was the one person to act Cinder in the Peterkin story.

BAY STATE LINE

"AN ACCOMPLISHMENT

WROUGHT IN THE FINEST TRADITIONS"

Says

WILLIAM L. WARD

President of Russell Burdall & Ward
Bolt and Nut Company

Director of the
First National Bank of Portchester

"Patient research—that factor has characterized nearly every great scientific achievement, and the more public spirited the enterprise the more careful it is to insure successful results. Anyone who reads about your modern use of the Ultra Violet Ray in the 'Toasting' of the LUCKY STRIKE tobaccos cannot fail to recognize the long patient research and experiment that must have preceded it. I regard your development as an accomplishment wrought in the finest traditions."

William L. Ward

Consistent with its policy of laying the facts before the public, The American Tobacco Company has invited Mr. William L. Ward to review the reports of the distinguished men who have witnessed LUCKY STRIKE'S famous Toasting Process. The statement of Mr. Ward appears on this page.

LUCKY STRIKE—the finest cigarette you ever smoked, made of the finest tobaccos—the Cream of the Crop—**THEN—"IT'S TOASTED."** Everyone knows that heat purifies and so **TOASTING** removes harmful irritants that cause throat irritation and coughing. No wonder 20,679 physicians have stated LUCKIES to be less irritating! Everyone knows that sunshine mellows—that's why **TOASTING** includes the use of the Ultra Violet Ray.

For greater entertainment facility, make a practice of keeping a few bottles, or a case, of Pureoxia on hand at all times. It's a compliment to your guests to serve Pureoxia Ginger Ale. It means that you know they appreciate a good ginger ale and will respect your choice of beverages for their refreshment.

Pureoxia now comes in convenient cartons holding 12 bottles. It's the most economical way to buy, and a guarantee that you'll always have an extra bottle on hand when friends drop in for a game of bridge or to listen to the new radio. It combines so well with fruit juices for most complicated drinks, too. Fruit punches, cocktails, etc., are given added zest and zip through the addition of this sparkling golden ginger ale that's the choice of Mrs. Cross and Martha Lee. Order a case today and taste something new in ginger ales.

Sweet Potato Hearts

Choose fairly large sweet potatoes. Scrub, and boil until tender. Peel and cut into slices one-half inch thick; shape with heart-shaped cutter. Place on buttered baking sheet and with a pastry bag filled with mashed Irish potatoes make fluting around the edge of each heart. Place butter, pepper and salt in center of potato. Put in 375 degree F. oven until potatoes fluting has browned.

Rumford Is Favorite Baking Powder at School

You'll notice that Mrs. Cross used Rumford Baking Powder in her demonstration lectures at the Martha Lee Cooking School. At the Social Station. And to Rumford she gives much of the credit for the success of her baking.

Every physician and dietitian recognizes the necessity today of adding to the diet the food phosphates and the food line so vitally necessary to our health. Rumford, the Phosphate Baking Powder, does two things for you. First, it restores to waste flour the phosphates lost in milling and second it guarantees that our delicious hot breads and biscuits will be light, tender, well-flavored and of good texture. This, of course, is quite as important as the health-giving virtues of Rumford, for in us our brands are light and tender, they cannot up their part in body-building.

You'll find Rumford Baking Powder very economical, too, and it retains its goodness and strength to the last spoonful in the can. Mrs. Cross considers it as nearly perfect as any food product can be made.

Marshmallow Dainties

Make a small hole in the top of one very economical, too, and it retains its goodness and strength to the last spoonful in the can. Mrs. Cross considers it as nearly perfect as any food product can be made.

Appliances Big Help

The many beautiful pieces of electrical household equipment which you see at the Martha Lee Cooking School at the Social Station were loaned for the occasion by Edwin C. Lewis, Inc., 123 Federal st., Boston. These were chosen exclusively by Martha Lee and Mrs. Lilla Pauline Cross for use and demonstration at the Social Station this year.

One of the points Mrs. Cross emphasizes in her lectures and demonstrations is the invaluable aid electric household appliances are to the housewife. Toast and waffles, those two standards of the American breakfast table, are prepared so easily and perfectly if you own an electric toaster and waffle iron. Not only that but whole dinners can be cooked electrically, if you have the equipment, at a very small cost. Electric cooking is not an expensive luxury.

Electric appliances are silent, quick, efficient servants, which with a little care will repay you thousands of times over the cost of their original investment, not only in time and labor saved, but in the greater variety of foods which can be cooked so deliciously.

Filled Cakes

Bake any of our cake recipes in muffin tins. Split through the center horizontally with a spoon. Fill cavity with ice cream, whipped cream, or a small quantity of any filling with jam. Replace top on cake, frost, if desired, and serve.

HEALTH for all the family

* Look for the Red, White and Blue Package

Remember in MUELLER'S
As a Change from Potatoes
in every package of
MUELLER'S MACARONI

BUOYANT health—eager energy—vitality brimming over—these can be possessed by all your family. Serve health-giving food at every meal. Have MUELLER'S MACARONI often.

The "Energizing Food"

MUELLER'S MACARONI is made from a choice blend of farina—the heart of the wheat. It contains just the elements the body needs for health, growth and vigor. It is an ideal food for children and adults. Whether served plain, or in special recipes, such as the following, it is delicious, nourishing and easy to digest.

MACARONI with Peanut Butter

½ package MUELLER'S MACARONI; 1 cup peanut butter; 1 tbsp. minced parsley; ½ tsp. salt; ¼ cup paprika; ½ cup bread crumbs; 1½ tbsps. flour; ¼ cups milk; tomato sauce. Parboil macaroni 7 min. in 2 qts. boiling water with ½ tsp. salt. Drain. Stir pea-

nut butter into macaroni, cover, and set in warm place until peanut butter melts. Add seasonings, crumbs. Add flour to milk, rubbing to smooth paste, pour into macaroni mixture. Pour into greased baking dish, cover top with crumbs, dot with peanut butter. Bake until brown or about 20 min. Serve with tomato sauce.

Lightest and "Fluffiest"

Be sure to ask for MUELLER'S when you order from your grocer. By doing so you get the advantage of the exclusive MUELLER processes, which assure an exceptional lightness and "fluffiness" in the macaroni when cooked. Boil for nine minutes only, according to the directions on the package. In this way you avoid overcooking, a frequent error with American housewives. One or two minutes more may be allowed, however, for extra tenderness.

Ask your grocer for MUELLER'S; he has it, or can get it for you.

LEAVENING

DEMONSTRATED AT THE

Boston Evening American
—Sunday Advertiser
Cooking SchoolGrand Ballroom, Hotel Statler
Sept. 30-Oct. 1, 2, 3

Conducted by MARSHA LEE Assisted by MRS. ELLA F. CROSS

THE perfect proportion of leavening action as determined by scientists and cooking experts is Two-to-One; that is, two-thirds of the action takes place in the mixing and one-third takes place in the oven.

This is exactly the proportion of the leavening action you get with Rumford Baking Powder. Laboratory tests and control in the manufacture of Rumford assure your getting these results every time.

Have you a little Kelvinator in your home? If you haven't you will certainly want to see the new Yukon model Kelvinator that is to be demonstrated at the Martha Lee Free Cooking school at the Hotel Statler next week, and then give away to some lucky lady in the audience. You may be that fortunate housewife, and just how fortunate you can't possibly know until you've had an intimate acquaintance with all of the virtues of a Kelvinator electric refrigerator.

Aids from making ice cream and deserts of all kinds to perfection with a minimum of effort and cost, consider the advantage of having one of these improved electric refrigerators in which to store your fresh fruits and greens and delicate vegetables. It means you need to market but once a week, instead of every day, and that you can buy and keep larger quantities, which is the best sort of economy. You can plan your meals a week ahead, without danger of being confronted with a "left-over" problem. Like the little boy with the apple who said "there ain't going to be no core!" there just isn't a "left-over" problem. With the aid of Kelvinator you can use every last bit of food, and it will keep for days and days, so you don't have to serve lamb croquettes on Monday if you had roast lamb on Sunday; because the lamb will improve by being kept for a few days at the period of Kelvinator—between 40 and 50 degrees—and emerge to be remade in the form of a new and more tasty food.

COSTS \$108.30
This Yukon model is a roomy, It has over nine square feet of shelf room. It's really just a convenient as having a complete stove right in your kitchen, where you learn how to stock it to best advantage.

One look at the new Yukon Model Kelvinator and you will need no high-powered salesman to point out its merits. You'll notice over a pleasing finish, its sturdy proportions, the thickness of its heavy door, the roominess of its interior, and you'll know that here is the refrigerator you have wanted all the time. But as there can be only on request of a girl Yukon many of you will want to know the price of this food-guardian. Only \$108.30 for the new Yukon Model Kelvinator, an exact duplicate of the model given away at the Martha Lee Free Cooking School through the generosity of the Kelvinator Company.

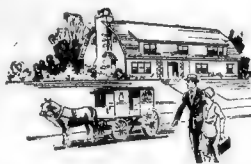

Stuffed Prunes
Steam prunes until they are large and round. Remove seeds and stuff with fondant or nuts, or both.

Let Penn Care for
All Your Florist
Problems

Whether it's for congratulations, sympathy, or welcome home, with the help of Penn the Florist you can always say it best with flowers.

I dropped in there this morning to send a basket of growing button chrysanthemums and autumn leaves, with orange ribbons inter-twining the handles, as a golden wedding gift. And while I was there, a slightly embarrassed husband-to-be came to order his bride's bouquet of lilies of the valley and orchids, with armfuls of roses, gladioli, and larkspur in rainbow hues, for the maiden of honor.

And in another moment a pair of cherry begonias went flying to greet someone just home from abroad, baskets of chrysanthemums were promised for Halloween and a wee cradle of tiny sweethearts roses were sent to welcome a little cousin to America, and a box of bright everlasting was packed for somebody's house warming.

Award Marks
30th Year

One of the major gifts to be awarded at the Martha Lee Free Cooking School in the Hotel Statler, this week is a beautiful jollier model Spartan Radio, presented through the Standard Stores, 371 Washington St., Boston.

At the cooking school this week you may see this beautiful cabinet set, complete with 11 tubes, which if you have never heard a Spartan Radio you will be impressed by the realism of the tone and know the thrill of that feeling that the performer is before you in person.

This year is the 30th anniversary of Spartan products, and what more fitting celebration than the bestowal of one of their finest products to a New England housewife through the Standard Stores, New England's largest chain of radio stores?

Macaroons Are Feature of
All Market Baskets

I know that one of the things plump enough to satisfy the most greedy, and rich enough to tempt the most particular, costs only 50 cents.

Drop into Gilchrist's and are under such clean and sanitary conditions these popular dainties are made. Notice the snow-white ovens and see how white-gloved assistants assure you that these macaroons are never touched by hands in the making or packing. We've said Golden Almond Macaroons in the Martha Lee Cooking School for a long time, not only to serve with Monte and ginger ale, but in many delightful desserts, such as chocolate macaroon pudding, macaroon custard, macaroon mould with raspberry jelly, jelly, peaches with macaroon macaroon whip.

Fur Show at
Lee School

As an "extra added attraction" to the Martha Lee Cooking School at the Hotel Statler tomorrow, we have arranged a special fur fashion show for you through the courtesy of Scott Furriers, Inc.

Ten minutes before the opening of the school at 2 p. m., all of Scott's lovely models, will exhibit the latest Fall fur fashions on the stage of the Statler Ballroom, and there will be another ten-minute fashion show during the intermission between the lecture period and the demonstration. There will also be Scott's Fur Fashion News broadcast from the stage over Station WJLB, during the afternoon.

Every one in New England we feel sure is familiar with the high quality and style correctness of Scott's furs, and are glad to take advantage of the three convenient methods of payment, which can be arranged.

Kitchen Aid Helps in School

One of the most interesting appliances featured at the Martha Lee School at the Hotel Staller, as well as in Martha Lee's classes at 15 Winthrop st., is the newest model Kitchen Aid, the electric food preparer for the home which is such a favorite with both Martha Lee and Mrs. Cross. Thousands of you have seen Martha Lee making model potatoes, delicate jellies, healthful fruit sauces and wonderful bread with this magic electric servant, down in the Martha Lee School at 15 Winthrop st., and thousands more of you will see this electric maid hard at work helping Mrs. Cross.

Martha Lee says that there isn't anything in the world she can think of that she would exchange for the Kitchen Aid which she uses for the kitchen work in her home, as well as in her school. "It is unbelievable all the fatigue that it saves me," she says. "All the tiresome time-taking, beating, mixing and stirring is done so quickly and efficiently by my Kitchen Aid, and besides all this it strains, cream, makes mayonnaise, whips potatoes until they are like fluffy whipped cream, makes apple sauce without paring or coring the apples, makes marshmallow cream in no time, boiled frosting that never falls, cakes of wonderful tenderness and fine texture, and whips cream in a second, but to mention any of these is to do it justice. Any of your favorite recipes can be made more successfully with a Kitchen Aid. There are three speeds—slow, fast and medium, and it costs just about a cent an hour to operate this wonder work. Just plug it into an electric light socket, and behold a strong efficient pair of hands to create butter for you, chop meats, grind coffee, shred cabbage, chop oranges, juice, chop ice or freeze your ice cream, in addition to hundreds of other uses.

Whether there are two or ten in your family, whether you do your own house work or keep a maid, Kitchen Aid deserves an important place in your up-to-date kitchen.

Be sure to ask Mrs. Cross anything you like to know about this magic helper, and don't fail to look at all the beautiful attachments that you will find in the Kitchen Aid cabinet on the stage at the Staller Ballroom.

New Cleaning Service

Who knows just what dry cleaning is? We send things to the cleaner, and I dare say less than half of us know what happens up to our dress or coat comes back. It was with real satisfaction that I learned of a new cleaning service by C. G. Howe's Company and I think you all ought to know about it.

Like food, or clothes, or automobiles you can pay about any price you want for dry cleaning. If you want good cleaning you get the price of a very high-grade cleaner. Many of us have paid low prices, believing we were getting the best, when, as a matter of fact, we were getting inferior work.

Today the highest type of cleaner we know of, C. G. Howe's Co., has offered a secondary service to those who wish to pay less, at least for inexpensive or older garments. The real point is that the mystery is taken out and we all know just about what we are getting, and just why one kind of cleaning costs one price and another kind costs less.

We can send our best things and second best to the cleaners with safety and convenience all around. Those who make use of intelligent, modern service such as Howe's will always have a whole wardrobe "ready-to-wear" and at prices that suit the value of the garment, and the advertisement.

SUGAR SUPPLIES CALORIES AT THE LOWEST PRICE

Few Foods Return Such High Caloric Value for the Money

Sugar is an inexpensive food. Compared with butter, bacon, macaroni, bread, meats, milk, green vegetables and fresh fruits, sugar supplies the system with far more calories for each cent spent than the same amount expended on any of the rest of the products named.

This fact is significant because the average system requires approximately 2000 calories daily. Of this amount, sixty per cent should be derived from the carbohydrate group of foods to which sugar belongs.

To get the full value of sugar the housewife should consider it in relation to all the foods she chooses for her table. The most inexpensive balanced meal can be made satisfying and complete by a sweet dessert. Canned vegetables, as well as fresh ones, can be much improved in taste appeal if a dash of sugar is a pinch of salt is added while they are cooking. Breadstuffs and stewed dried fruits have added goodness when sugar is added.

Doctors and dietitians approve the use of sugar in making essential foods tasty. For foods contain vitamins, minerals and roughage—all of which are needed by the system. Good food promotes good health. The Sugar Institute.

Gift at School

THIS EUREKA VACUUM cleaner will be one of the major gifts at the Staller School.

the pocketbook also. Further details may be had by dropping a request to Martha Lee or to C. G. Howe's Co., telephone Stadium 100.

Cleaner Gets the Dirt

Many labor-saving devices will be demonstrated by Mrs. Lilla Pauline Cross at the Martha Lee Cooking School opening in the Hotel Staller Ballroom next week, among which will be a Eureka Special Vacuum Cleaner. You probably are familiar with the Eureka—most New England housewives are—and realize how many cleaning tasks it does and does well, and how much time and toil it saves. No speck of dust has a chance to lurk in corners when a Eureka is brought on the job, gliding smoothly here and there and thoroughly removing every particle of dust and dirt.

This handsome, powerful machine, does all the work. All you do is guide it, and it pulls the dust and dirt right out of the rugs and carpets. From the tip of its beautiful, extended, steel handle to its highly polished Bohemian aluminum alloy wheels the Eureka Special embodies only the finest of materials and workmanship.

So sure to be on hand at the opening session of the four-day school, which will start on Tuesday, September 30, at 2 o'clock. One of these Eureka Special Vacuum Cleaners will be given as a gift to some member of the audience, and who knows but that your presence may result in the possession of this splendid cleaner?

Lovell Man Badly Injured by Auto

Lovell, Sept. 30.—Samuel Smith, 33, of 132 G and st., was seriously injured today when he was struck by an auto in Chalmers st. Smith was crossing to his store when the auto driven by Thomas H. Varum of 888 Chalmers st., knocked him down, according to police. Smith was taken to St. John's Hospital suffering head and back injuries.

MARTHA LEE and Mrs. Lilla Cross

Nationally known authorities on Home Economics and Domestic Science approve of these.

Power Combine in Huge Buying Drive

New York, Sept. 30 (AP)—The American Commonwealth Power Corp., a nation-wide utilities company, has announced it has decided to inaugurate a policy of substantial buying for future operations, in the belief that present commodity price levels are likely to constitute the low point for some time.

Coste, Bellonte Get Texas Cash Oct. 17

New York, Sept. 30 (AP)—Col. W. E. Easterwood, Jr., Dallas, Tex., banker, announced today the presentation of the \$25,000 prize to Claudine Coste and Maurice Bellonte for their Paris-Dallas flight has been postponed till Oct. 17. He said the fliers telegraphed him from Los Angeles, saying they would and their tour here Oct. 1.

Cooking School Note

In the cooking school conducted under the auspices of the Boston Evening Globe, the students are instructed in the art of cooking. The school is held at the Hotel Staller, and the students are instructed in the art of cooking. The school is held at the Hotel Staller, and the students are instructed in the art of cooking.

He rode 10 miles and crossed a river to get Lemon Pie like this

I CALL this "Matty's Lemon Pie" because a man from Missouri told me it was as good as that made by an old colored cook named Matty—and he once rode 10 miles on horseback and rowed a mile across the Missouri River just to eat her lemon pie.

"Matty's Pie" is just sweet enough—with an overtone of fresh, piquant fruit, crowned with a pert meringue, browned to a golden glow and served in a Crisco pastry shell, as crisp on the bottom as it is around the edge—as only Crisco pastry can be.

MATTY'S LEMON PIE

1 lemon, juice and grated rind	1 cup granulated sugar
1 orange, juice and pulp	1/4 teaspoon salt
1 egg yolk, beaten light	1 tablespoon Crisco
3 tablespoons cornstarch	1 1/4 cups water

Beat egg yolk light and stir in mixed dry ingredients. Add lemon, orange and Crisco. Cook in double boiler until thick. Cool. Pour into baked shell. Cover with meringue (8 egg whites, beaten stiff, blended with 4 tablespoons granulated sugar and 1 teaspoon lemon juice). Bake in moderate oven (350° F.) for 15 minutes.

FLAKIER PIE-CRUST (and a short cut)

If you haven't made pie-crust with Crisco, you've got to discover how really tender and flaky pie-crust can be! Sweet-tasting, too, because Crisco tastes sweet and pure all by itself—and comes to you fresh in an all-right can.

To save time in pie baking you can keep this pastry dough, already mixed, in the ice-box and bake a crust just when you need it. It will stay sweet, because Crisco itself stays sweet. And the thorough chilling will make the crust even flakier than usual.

4 cups flour
 1/2 cup Crisco
 1/4 cup cold water

Sift flour and salt together. Cut Crisco in with two knives until consistency of small peas. Add only enough water to hold mix together. Roll 1/4 inch thick on floured board.

For baked shell, use half of recipe and cover inverted pie plate with pastry. Leave enough dough to fold back to make a firm edge. Prick well with fork to prevent bubbles. Bake in hot oven (450° F.) 15 minutes.

For two-crust pie, bake 10 minutes at 450° F., then reduce heat to moderate (350° F.); bake until filling is done.

ALL MEASUREMENTS LEVEL. Recipes tested and approved by Good Housekeeping Institute. Crisco is the registered trademark of a shortening manufactured by The Procter & Gamble Co.

Taste Crisco—then any other shortening will tell you why things made with Crisco taste so much better.

CAKES PIES DISCUTS COOKIES FRIED FOODS

In its new all-right cans—as fresh and sweet as the day it was made

CRISCO

Know all this by now? Prove that GENERAL BAKING COMPANY is held and fairly bound to the Purchaser of this loaf of Bond Bread

and hereby warrants that the loaf of Bond obtained with the General-Purpose Flour, Crisco, and no other ingredients, any kind of Water, Sugar, Fat, or any other substance, is the best and most delicious of all loaves of Bond Bread.

GENERAL BAKING COMPANY

At the American Cooking School Mrs. Lilla Pauline Cross

tells why she recommends BOND BREAD

SHE has tested the purity of the ingredients used. She has seen how thoroughly each loaf is baked. And then she has bought Bond Bread at her grocer's—fresh from the oven, well-browned, firm and close-knit in texture, home-like in flavor. Like more than a million other women who buy it every day, she recognizes in Bond the ideal loaf of the American housewife—for 43,040 housewives helped to perfect it.

After all—there is no bread like Bond

The home-like loaf

2 Glenwood Ranges to be Given Away

Hundreds of hearts are beating hopefully over the announcement that among the most interesting features of the Martha Lee Cooking School, at the Statler-Baldwin on September 30, October 1, 2 and 3 will be the presentation of two insulated Glenwood gas ranges—the ranges that "make cooking easy."

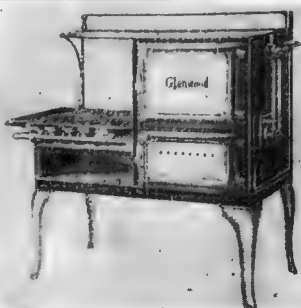

TO ANNOUNCE DETAILS
Miss Daurice Darling, head of the home service department of the Boston Consolidated Gas Company, will give from the platform of the Martha Lee School complete details about the giving away of these two ranges, so keep an open ear for some extremely interesting news. Miss Darling will also broadcast during the school over station WLEX.

Thousands of New England housewives count Miss Darling as their friend—many of them have attended the demonstration lectures she has given in the Martha Lee Cooking School at 5 Winthrop sq. and at the Boston Consolidated Gas Company's beautiful auditorium at 100 Arlington st. Perhaps you've been fortunate enough to attend one of Miss Darling's demonstrations of overcooked meals in this twofold range, showing that the oven can be used for baking as well as baking, and uses the top burners only for quick work. The automatic cooking of eggs, stews and boiled dinner in the new in the modern Glenwood way.

WLEX FEATURE

No wonder every one is anxiously waiting to learn from Miss Darling full particulars of the presentation of these two wonderful

Two Ranges as Gifts

TWO INSULATED Glenwood gas ranges are to be given away during the Martha Lee Cooking School which opens today at the Hotel Statler.

ranges—the extra range and in the Martha Lee Cooking School in the Hotel Statler this year. To win it, be on hand in hear what Miss Darling has to say and remember to tune in for her chat over station WLEX, each afternoon of the school.

Gen. MacArthur Sails

Yokohama, Sept. 30 (AP)—Gen. Douglas MacArthur returned from the Philippines to Washington to become chief of staff of the American army, sailing today for San Francisco.

Tips for Tea From India

The India Tea Bureau has just completed a study they have been making on the average housewife's methods of making tea and comparing them with the tea directions found on every package of India Tea. They find that all too often the most particular home-made fails to yield the proper results. Actually fresh water when has been allowed to come to a "boiling boil." All too often, they use water which perhaps has boiled once, allowed to cool a bit and maybe been boiled again. Instead, the water should be allowed to let run from the faucet a moment or two (I'm sure we needn't emphasize that it should be cold water) and then put on and brought to a rolling boil.

RULES VARY

The India Tea Bureau feel that no definite rule can be made as to the exact amount of tea that should be used. Most India Tea growers recommend a teaspoon for the cup and one for the pot, whereas others suggest the proper amount as a half teaspoon to the cup. In the opinion of the bureau, no invariable rule can be given as tea varies in character. Neither can a hard and fast rule be given as to the length of time of brewing, although most people suggest from five to seven minutes at the end of which use the hot beverage is poured out into another hot pot.

SCALD TEAPOT

The India Tea Bureau, however, do give us a definite rule for making tea right. "First," they say, "scald the teapot by putting boiling water into it. Then empty it and put in a teaspoonful of tea for each glass that you want to prepare. Remember that it must be heaping to make the brew extra strong because melting ice will dilute our tea later. Next pour freshly boiling water over the tea leaves

Request for Priest Brings Three Fire Departments

Brockton, Sept. 30.—A request for a priest brought to flames from three stations the house of Hugo Johnson on Mulberry st., yesterday. He had asked a neighbor to telephone for a priest on account of serious illness in his family.

Who made the error is not known, but a few minutes after the request several engines changed their way up to the door. According to the firemen, Box 48, located nearby, had been sounded.

It must be riotously bubbling and boiling and give off whole clouds of steam. Now let your legs stand for three to five minutes, but no longer. If it must stand longer, pour off the liquid into another container at the end of three to five minutes.

MacGowan Addresses Radcliffe Students

Kenneth MacGowan, dramatic critic and editor, addressed students of Radcliffe in the theater at 4-30 this afternoon under the auspices of the J. Edgar Club.

Mr. MacGowan was at one time dramatic editor of the Boston Transcript and later of the Philadelphia Ledger and Vogue.

Girl Scout Leaders Greet Mrs. Hoover

Indianapolis, Sept. 30 (AP)—Mrs. Herbert Hoover arrived in Indianapolis today to attend an executive committee meeting of the national council of Girl Scouts, of which she is honorary president. Mrs. Hoover was entertained at breakfast at the home of Governor and Mrs. Mary C. Leslie.

Choose Your Milk Man

What does the word "milk" mean to you? Simply a beverage, chiefly for children and cooking, or a wholesome food which does not require cooking and which contains no waste material?

For the hundredth time I'm going to repeat that it is the most precious food we know. Firstly, it provides infants with their builder in a form easily digested by their delicate tummies. It also contains all the necessary mineral ingredients for the construction and repair of bone tissue, and also sufficient iron to enrich the red blood cells.

We know that whenever a careful diet is necessary for treatment in illness milk is almost invariably prescribed as its base. But don't forget that it is equally valuable for the well as for the ill. Try to get out of the habit of thinking of milk as a beverage—think of it rather as a real food.

And just another suggestion—in choosing your milk dealer be sure that you are providing your family with absolutely pure hygienic milk, such as that furnished by the H. P. Hood Company for the Martha Lee Cooking School in the Hotel Statler as well as the school at 5 Winthrop sq. The H. P. Hood Co. was a pioneer in the proper handling of New England's milk supply and has done much to educate people in what they require for their own and their children's health. Hood's milk is produced from pure pasturage from the hills of New Hampshire, Vermont and Maine, and at the regular inspected and ideally conducted farms in suburban Boston. Before a milk supply is accepted from any farm, experts examine everything pertaining to the farm, the herd and the handling of milk.

Let's Ask Finnish Border Row Cease

London, Sept. 30 (U.S.)—Continuation of alleged frontier violations along the Finnish-Russian border is demanded in a Soviet note forwarded to the Finnish government today, which opens October 5.

Bulgaria to Attend Parley

Athens, Sept. 30 (AP)—Information was received from Sofia today that the Bulgarian government has reconsidered its decision and will attend the Balkan conference, which opens October 5.

Massachusetts Tercentenary, 1830

THE WEST CHURCH, shown here, still stands at the corner of Cambridge and Lynde sts., fronting Cambridge st. The congregation was organized in 1738 and its pastor was Rev. Warren Hooper, father of a signer of the Declaration of Independence. Jonathan Mayhew was another pastor. Here, New England's first Sunday school was established. The building now houses a branch of the Boston Public Library and is being preserved by the city.

Bears Feast on Trail Signs in Northwest

Portland, Ore., Sept. 30 (AP)—Maj. John D. Guthrie, assistant regional forester, said today bears in the last year have eaten more than 3400 worth of hand-painted trail signs erected by the United States forest service in Pacific northwest forests.

Ford Gives \$250,000 to Deutsches Museum

Oberammergau, Bavaria, Sept. 30 (AP)—Henry Ford has contributed about \$250,000 to the Deutsches Museum at Munich, it was learned here today. The manufacturer, meanwhile, is continuing purchases for his private collection, including a quaint old wagon from a farm near Stuttgart.

Moxie Gift to School

Tomorrow I'm going to sit me down and write an unsolicited letter to Mr. Frank M. Archer, Sr., vice-president of the Moxie Co., telling him how much Moxie means to me personally.

Even though my kitchen space is limited, there's always room, though with not a sixteenth of an inch to spare, for a case of Moxie, and heaven help the one who takes the last bottle off the ice and forgets to put on another. For it's to the Kalmianator I go the first thing after I reach home from a strenuous day in the office.

There is sip and seat in this famous drink and no matter how wrong the day has gone—and all of us have those days, don't we?—I can almost always see the silver lining through a glass of sparkling Moxie. I think all who taste this bitter-sweet, refreshing beverage get an irrefragable tang that makes them realize it's a pretty good old world after all.

We certainly are very grateful to Mr. Archer, who supplied sufficient Moxie to the Martin Lee Cooking School at the Statler to enable us to include one bottle of Moxie in each of the market baskets that are given away every day and ten cases to award as gifts at the close of the school.

Corrigan Shakes Up Clerks of N. Y. Courts

New York, Sept. 30 (AP)—Chief Magistrate Joseph E. Corrigan ordered nine assistant court clerks transferred to new assignments "for the good of the service" today. It was the fourth shakeup since Mr. Corrigan took office three months ago, and followed alleged threats of court funds for which several clerks are under charges.

Countess Cathcart Weds Aged Magnate

London, Sept. 30 (AP)—Vera, Countess of Cathcart, was married to Sir Rowland Hodge, 71-year-old millionaire ship-owner, at Prince's Bow Register Office today.

This is the countess' third marriage. Widow of Capt. De Grey-Warner, killed in the World War, she was married under her maiden name, Vera Fraser, to the aged Sir Rowland Hodge in 1928. He divorced her in 1921, naming the Earl of Craven.

Denied admission to the United States in 1928 on the ground of "moral turpitude," she was admitted later with a play written by herself, "Aches of Love," which failed.

Pagan Marriage Ideas Scored by Women

Denver, Colo., Sept. 30 (AP)—Writing against "new pagan ideas" relative to the sanctity of marriage and the home was forthcoming at the opening session of the tenth annual convention of the National Council of Catholic Women.

Miss Mary G. Hawke, Summit, N. J., national president, said woman must be the bulwark against encroachment of this new paganism.

Yachts Sent Adrift by Tiny Sea Vandals

Westport, Ct., Sept. 30 (AP)—The identity of "vandals" who have been setting expensive yachts adrift in Long Island Sound by cutting the painters was made known today. Chemists' analysis disclosed tiny sea worms eat away the strands of the rope so they part readily in the sweep of flood tide.

BOSTON CONSOLIDATED GAS CO.

JUST ACROSS THE WAY FROM THE HOTEL STATLER
100 ARLINGTON ST., BOSTON

To those who do not know PAINE'S

▲ Economy is served not where price is lowest but where quality is highest.

▲ When price is emphasized as is being done today it is usually at the expense of quality and service.

▲ Now, as before the present period of price selling, the dominant factor in Paine merchandise is quality. We do not sell "cheap" furniture. We cannot afford to. Nor can you afford to buy it. It is most expensive in the end.

▲ But Paine prices are always the lowest commensurate with the quality. We are never undersold when quality is considered.

▲ The increasing number of small homes and apartments we are furnishing is evidence that those who must buy most carefully are finding they can do better here. Much of our new business at this time is purchases by young couples working on a budget. Investigation has convinced them that Paine quality is within reach of even the most limited incomes.

▲ We welcome particularly inspection and comparison by those who must make every dollar count. Looking incurs no obligation. Visit through our many floors. See the largest variety of new, style-right home furnishings in New England—all chosen on the basis of value, not price. Considering what you get, we are confident you will decide you can save in the long run by furnishing your home at PAINE'S.

"IT'S THE SPOT"

Mayor and Chief Plan to Get Polack Annie

WHAT HAS HAPPENED SO FAR

The Edgewater kid, whom Polack Annie, beautiful daughter of the underworld, called her man, is killed by a machine gun planted in a jump seat across from his front. Annie is arrested, but lashed out by Eddie Moran, leader of Chicago's North Side gang, of which the kid was a member. (Editor's note: The kid was a member of the North Side gang, of which the kid was a member. The same evening Kinky King is found murdered, a gold retriever beside him. Some four weeks preceding the murder the kid, who had stolen Annie from Kinky King, entered the Devil's Hall, a gambling place, and Kinky King, sitting there with a blonde, saved her from being killed.

NOW GO ON WITH THE STORY

CHAPTER 4

THE MAYOR of the sovereign city, metropolis of the Western World, sat in his throne room in City Hall. His feet rested on the big walnut desk of his high office. Across it, contemplating the ashes on his cigar, sat the Chief of Police.

"Listen here, Leo," said the Mayor, "we've got to pull a punch in this Kinky King case."

The Chief blew on the end of his cigar until it glowed red again.

"Anything you say, High-guy," assented the Chief. "Who do you pick to take the fall?"

"I don't care. But the papers are running red this morning. After that Hannibal-King-Gorio disarrangement, after my tall and mighty promises of no more gangwar, to have this come off—they're laying me out like nobody's business. We at least have to go through the motions of kicking somebody over the jumps."

"Right. We know who settled Kinky King—Goldie Gorio."

"What makes you so sure? Would he be fool enough to leave his gold-mountain home behind him—be as well have left his car?"

Left Souvenir

"That's Goldie. What souvenir either man or woman leaves when he or she goes away is his or her own. He's as likely to do the one as the other. If somebody else did it with his pet, the play was to make it look like him, which it would be if there was no direct star that way. If he did it himself, he's showed and daring enough to figure that if he's copped for it, he's got it strong enough to go through."

"You say we ain't in the Mayor—"

"Who says you ain't? Tell me to bring in Goldie. I'll do it. And in eight hours the roof'll cave in on the both of us. You know what back-up you got. You know the precinct captains, the district leaders, the ward committees, the men in with the Mayor. For what? For dough. And for what do they get their dough? Protection. Who made that? The Mayor. You know the organization? The precinct captains, the ward committees, the district leaders. Okay. Run Goldie in and run them out."

The Mayor leaned a trifle further back and slumped deeper into his big armchair.

"There's something in what you say, Leo," he agreed. "There's considerable. You put me in the front office before I'm no chief. Well, I'm no chief. But we've got to pull a punch. We must have a tangle ram as a sacrifice. Some body sensational enough to be Page 1. Somebody to stall it till the story's cold—when they assassinate some other gangster. Now—who?"

Get Polack Annie

"If you ask me, High-guy," Leo whispered to the Chief, "what we need is a woman. A woman? For what?"

"For pictures—for human interest—for copy—you don't want a tangled ram, you want a tangled sheep."

"Hmph—for a copper you exhibit unusual intelligence. Sounds right. Now, where do we get this female?"

"What? What's her name? Who'd she ever kill?"

"Nobody that I ever know of. But she had at least two good men killed—the Edgewater kid and Kinky King."

CHAPTER 4

She's a red-headed hunk o' dynamite, she pictures like a house afire, and she was King's sweetie, blew him for the kid, and was sprung yesterday by Goldie Gorio. Want any better dovelist than that?"

"Gee, that's hot. Is it all copsettes?"

"They found a gold lipstick tube with the gun, didn't they?"

"So I read."

"So I'm telling you. I've got it in my dink. Well, she was Goldie's—that's six-two-and-egg. But that lipstick! Goldie ain't no—he don't make up his lips, does he? It's most likely the lipstick had nothing to do with the murder at all. Kinky had hours of the day like it was a grocery store. But you can't laugh off that lipstick with information that gave a clue to the murderer."

"So I read."

"So I'm telling you. I've got it in my dink. Well, she was Goldie's—that's six-two-and-egg. But that lipstick! Goldie ain't no—he don't make up his lips, does he? HAWARD EXAMS ON JEWISH HOLIDAY

First Award for Tips Divided

\$25 S S SPLIT ON SAME STORY

South Boston Girl Second With Flash on Fire Where 10 Were Hurt

Two fast-working minds gave the Boston Evening American News Tip Editor a puzzle during the week, and as a result he is forced, in fairness, to default first award for the week.

This was in connection with a "technology student's snafu" in a nearby plant, flashed the first tip on the boy, having been found, a short time later Herbert A. Doerflinger, of 121 South Boston, a taxi driver, arrived in this office with information that gave a clue to the murderer's identity.

Therefore, the first award for the week must be divided—\$125.00 to Doerflinger, and \$125.00 to Doerflinger.

CRACKSMEN GET GARRETT BURIAL \$505 IN 5 JOBS SPRAY DAGED

Touring safe crackers opened five safes in four Greater Boston establishments in second session of Suffolk Superior Criminal Court.

Police believe the same pair of yeggs performed all four jobs, and in the headquarters of the Police & Fire Department, on the second floor of the Police Memorial Building, 9 Appleton st., South End, footprints of two men were found on a desk.

Here the safe-crackers ripped open two small safes, obtaining \$100 from one and \$50 from the other.

At Roxbury, where the yeggs ripped open the safe of Lawson W. Cooke, Inc., building contractor, 300 Fairfield st., they forced their way in, for the safe was empty.

There were also pickings in Walpole, but still a bit better than in Roxbury. After ripping open the safe in the office of the Elm Street Farm Dairy near Beaver Brook railroad station, the safe breakers were enriched by \$25. The rear door was found battered in here.

In Medford, where the yeggs ripped open the safe of William W. Thompson, 125 Main st., they found \$125 in cash. From the cash register the thieves had also secured \$5 in change.

Chaplain's Watch Is Proof of Honesty If Not of Time

Rev. William B. Whitney, State prison chaplain, is beginning to think his watch is no good, but yeggs for the honesty of the prisoners.

Six times in the past few years the timepiece has been returned to him after he left it on his pulpit. The latest was this week but the query of the honest prisoner, "Say, Chaplain, is this watch any good?" has set Mr. Whitney to thinking.

At any rate, it times his sermons at the general service.

NEWTON WILL HOUSE 800

Arrangements for housing 800 delegates and visitors to the American Legion convention have been made by Newton Post No. 41, American Legion, in cooperation with Mayor Minicucci's office and the Newton city government.

They will be housed in 150 private residences in the Newton Club and in the State Armory and various other buildings will be used as recreation centers.

A beacon light near Norwinton Park that will flare a welcome to guests passing through Newton is now under construction.

OFFICIALS FIND OUT TOO LATE TO CHANGE

Students Absent Because of the Yom Kippur Service Can't Get Decear

A hasty conference of Harvard professors was called today when it was discovered that one of the divisional examination days was named for Thursday, a Jewish holiday, with no chance of adjusting the matter this year.

The divisional examinations cover a general review of the entire college course of the student and require a passing mark before a degree may be granted.

Students of Hebrew extraction were faced with the problem of attending the solemn services of Yom Kippur or abandoning them for the examination, with their degree hanging on the decision.

Dr. J. K. Lamb, spokesman for the university, announced that officials regretted the oversight, in naming this year's examinations on the Jewish Day of Atonement, but that the professors could make no change on account of the closeness of the date.

Terms as low as \$2 per week may now be arranged in the purchase of terms to \$25 per year.

The sum of \$300 will cover the first year's payment in the purchase of a duplex single house in Cambridge. It is heated by gas and has open plumbing, and the property includes a garage for a car.

Price is \$380.

Terms at \$2 per week will return your car, supplying all maintenance, including oil, for \$2 per week. The car is a 1929 Ford, and is in excellent condition. It is for sale at \$2 per week, and is a great bargain.

BOSTON'S NEW BATHTHOUSE TO RIVAL PALM BEACH IN BEAUTY

Police Win in Wild Chase

WILLIAM H. CORRIGAN

FRANK V. DONOVAN

SGT. JOHN H. McFARLAND

A WILD CHASE through downtown streets with thousands looking on ended in the capture of William H. Corrigan, 33, of Buffalo, in an alley in Bromfield st., as a burglary suspect. He is shown with Special Officer Frank V. Donovan and Sgt. John H. McFarland. (Staff photo.)

STATE BOARD HEADS HEAR OF PLANS

New Steel Structure Is to Be Modern Throughout, With Sun Rooms, Garden

Palm Beach will move to L. at, South Boston, before next summer, Mayor James M. Curley told the conference of planning boards today in conference at Hotel Kenmore at the call of Gov. Frank G. Allen.

The mayor was describing the plans for the new bathhouse, expected to be completed in June. His plans and others concerning the beautifying of Boston were heard by 14 planning board heads of Massachusetts and visitors from other states, including Washington, D. C.

HOT GARDEN PLANNED

Hot shower baths of soft water, restful couches, sun rooms and all the modern benefits enjoyed at Palm Beach will be installed here, he said. The steel structure will be the best word in modernity and will be covered by a quartz roof.

Plans for the bathhouse in the rear of the Art Museum in the Fenway at a cost of \$75,000 and a rock garden adjoining to cost \$60,000 were revealed by the mayor.

He told the visitors of the vast improvement since the "Bigger, Better, Bigger Boston" movement in 1915.

Lieut.-Col. U. S. Grant, 34, of Washington attended the meeting in connection with his activities there.

NEW YORKER TO SPEAK

W. Franklin Burnham of Reading, chairman, called the morning meeting to order before the opening of the luncheon.

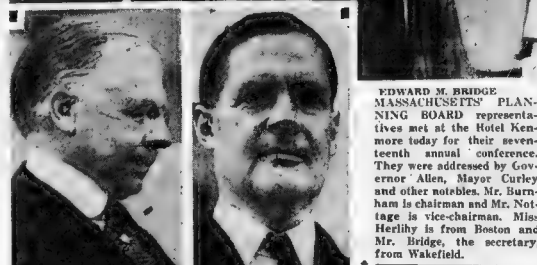

Tonight Thomas Adams, city planning engineer for New York, will be the speaker with Col. Grant and Lawson Purdy, president of the Planning Foundation of America.

The speakers at the evening session to follow.

Hon. Edward M. Bassett, legal director of New York planning boards, was the chief speaker of the afternoon. (Staff photos.)

City Planners Aim to Beautify State

W. FRANKLIN BURNHAM, WINTHROP I. NOTTAGE, ELIZABETH M. HERLIHY

EDWARD M. BRIDGE, MASSACHUSETTS PLANNING BOARD REPRESENTATIVE, MET AT THE HOTEL KENMORE TODAY FOR THEIR SEVENTEENTH ANNUAL CONFERENCE. THEY WERE ADDRESSED BY GOVERNOR ALLEN, MAYOR CURLEY AND OTHER NOTABLES. MR. BURNHAM IS CHAIRMAN AND MR. NOTTAGE IS VICE-CHAIRMAN. MISS HERLIHY IS FROM BOSTON AND MR. BRIDGE, THE SECRETARY, FROM WAKEFIELD.

Freshmen Entertained

Emmanuel College freshmen were tendered a party by their junior sisters yesterday in the college gymnasium.

Chief of Police William H. Walsh of Taunton, father of nine children, was instantly killed today when hit by a rock from a dynamite blast in the cellar for his new home on the Bedford road.

The chief was standing some distance away when the dynamite was set off, and with him was James Ricks of Roxford, who also was working on the excavation.

Ricks said that the charge of dynamite might have been too strong or that by some freak the stone slipped through the line of logs and brush piled atop the blast.

Through the accident the nine children of Chief Walsh were orphaned, his wife having died several years ago.

WILLIAMS' IMPROVED PILLS DOUBLE STRENGTH

New men and women, they are indispensable, safe and effective. They are the only pills that have been found to be so effective. They are the only pills that have been found to be so effective. They are the only pills that have been found to be so effective.

REWARD OF \$500 FOR \$10,000 NECKLACE

Peter Jennings, Counterman, Finds Pearls Beside Public Library

The \$10,000 pearl necklace with diamond clasp lost by Mrs. H. Cortland Van Voorhis of Arlington st., Back Bay, was found, it was learned today, by Peter Jennings, counterman at a Boylston st. cafeteria, who collected \$500 reward.

Jennings found the necklace beside the Public Library on Boylston st. while on his way home from his place of work at 707 Boylston st.

Before he realized its value he offered it for sale for 50 cents, but the friend to whom he offered it refused to be tempted.

The necklace, consisting of 119 pearls and a gift to Mrs. Van Voorhis from her husband, a bond broker at 30 Federal st., was lost while on a trip to Boston from her summer place at Manchester-by-the-Sea, September 18.

She reported her loss and the matter was given wide publicity, but Jennings, who found it September 18, did not hear about it until Friday.

Jennings is unmarried and occupies a room on West Canton st. An insurance adjuster who was asked by Jennings to identify the necklace was asked by Mr. Van Voorhis to keep the matter secret, as was Jennings but the story was learned by the Boston Evening American.

Jennings was at his work behind the lunch counter today as usual.

Woman Claims \$21,141

In an attempt to establish a claim of \$21,141 against the schooner Showboat, an amusement enterprise, Allen P. Quill, who, yesterday filed an action in the U. S. District Court here, she seeks this amount when the boat is sold.

Two miles from the center of the town who was dragged from the car and attacked. Dist. Atty. Bushnell told the jury that although Brown was the only one who laid hands on Miss Hagerty, his companions were equally guilty.

Miss Katherine Hagerty, 50, Concord, operator and telephone operator, collapsed on the witness stand today in Middlesex Superior Criminal Court, during trial of three youths charged with attacking her.

Under cross-examination by Atty. Joseph P. Walsh for Leonard and Hennessy, Miss Hagerty became hysterical and was taken from the courtroom while a recess was declared.

Walsh had tried to have her admit she had accompanied Hennessy, William H. Brown and Paul A. Delaney, all of Waltham, who were in their automobile.

"No, no," cried Miss Hagerty, bursting into tears.

Then she began screaming and it was heard in the courtroom after she had been led away.

Returning half an hour later, she said she did not know Hennessy, and Delaney tried to stop Brown from attacking her, but she was shifted from his back.

She was unable to identify Delaney and Hennessy when they stood up in court at Atty. Walsh's request, but readily pointed out Brown.

Justice Patrick M. Keating is presiding at the trial, the case being prosecuted by Dist. Atty. Bushnell.

The alleged attack occurred the night of June 22. Miss Hagerty was going to work. Believing she recognized one of three men in an auto who shot in, only to discover her mistake.

Boston American Scores Another Foul Proof Cup

Officials Lock Barn Door at Right Time

Score another for the BOSTON AMERICAN. Now all the local and visiting fans who will pack the Boston Garden until it bulges out at the sides, one week from tonight, to see Primo Camera, the Italian Man Mountain, and Shamus Maloney, the Sinking Spalpeen, exchange man-sized polliwogs, can rest assured that the encounter can not, will not be abruptly terminated by any foul or claim of foul. Through Matchmaker Alex MacLean's quick acceptance of the BOSTON AMERICAN'S suggestion to equip both of the giant boxes with the new foulproof protector, which makes it impossible for a man to be incapacitated by a low blow, the public will be amply protected against such occurrences as turned the Sharkey-Schmeling, Sharkey-Scott and Carnera-Godfrey matches into farces, reflected greatly on the integrity of the game and soured the public on boxing. Beating, Boston, the old Bay State, through the BOSTON AMERICAN'S suggestion, will be protected against any reflection on the sport or the manner in which it is conducted here.

Early editions of yesterday's BOSTON AMERICAN hadn't been on the newsstands an hour before Alex MacLean had read the suggestions regarding safeguarding the big bout, protesting the public and assuring nothing would take place to smother the fair name of sport in the Bay State. MacLean and other officials of the Boston Garden were quick to see the value of the suggestions, and equally quick to adopt them. Below appears MacLean's letter thanking the BOSTON AMERICAN for its timely suggestion and assuring the public that the big bout one week from tonight will be protected and safeguarded in every way.

The signs along the trail indicate that Boston realizes the magnitude of the undertaking, and what it means to Bostonians. An attraction like the Carnera-Maloney bout is something more than a mere boxing match. It is an event. It is an event which, not only on next Tuesday night, but for days before and after, causes country-wide attention to center on the Hub. Accounts of the match will be printed in papers throughout the country.

SEVENTH EDITION REPRINTING CLUB, INC.
NEW YORK, N. Y.

September 29, 1930

Mr. George Underwood,
Sports Editor,
Boston American,
Boston.

Dear Mr. Underwood:

Realizing the importance and magnitude of the Carnera-Maloney boxing match in the Boston Garden on October 7th, and that it means to bring through the country as well as in Massachusetts, I must to thank the Boston American for its most timely suggestion regarding the use of the new foul proof protector. It will secure the patronage of boxing that every one who pays his money for it and the two prize winners will be protected, within the marketplace, from any suggestion of foul play, which would be a disgrace to the sport and the city.

I not only want to thank the Boston American for its timely suggestion but I want to thank the readers of the Boston American and the patrons of boxing throughout Massachusetts that I will get in touch with the principle in the big match at once and notify them that they must wear the foul proof one. I have wired the manufacturers of the protector to come to Boston at once and prepare the marketplace and manufacture the protectors.

I know that Major General Alfred E. Smith and Commissioner George Buckley and Thomas J. Kilgus, who have been so much for boxing in Massachusetts and who have the best interests of the game at heart, will approve of the suggestion and furthermore will do everything in their power to protect the patrons of boxing and guarantee the public that the match will be made entirely on its merits and fought to a clean finish.

As the Boston American so clearly manifest, boxing, Boston and the city are before the bar. The Boston American Corporation composed of representative Massachusetts sportsmen, fully realize this and will have no stone thrown to guarantee the patrons of boxing a secure deal and to encourage the patronage of clean sport, which is the basis of the inception of the Boston Garden. I remain,

Yours in Sport,
A. MacLean

FOR SPORTS—CALL LIBERTY 4000

CARDINALS WORKOUT AT SHUTE PARK

Continued from First Page

Hafey would pitch a few balls into the left field bleachers. In practice today Hafey drove several balls into the bleachers. Johnson, a right-hander, and Grubbs, a southpaw, served fast balls and served to the Cardinal batters. The team was in fine fettle and, after the workout, Street declared they were in splendid physical condition and "all set" for the big series.

Crowds Storm Box Offices

While the Cardinals and A's were practicing, huge crowds of fans again stormed the box offices at Shute Park for tickets for the series. Seventeen ticket windows were in operation. More than 40,000 acres of tickets have been distributed in fans who called with their applications. Police and federal agents maintained a sharp lookout for speculators. The ticket situation seemed to be well handled and the speculators were finding difficulty in obtaining the coveted pasteborders. Clear, cool weather, such as prevailed today, is promised by the weather man for the two games to be played here Wednesday and Thursday. The official forecast is "fair and continued cool tonight and Wednesday."

Grimes Hopes to Face Grove

Philadelphia, Sept. 30 (IN)—Barleigh Grimes, the great "money pitcher" of the St. Louis Cardinals, today declared with a touch of trepidation in his manner that he is going to trust the opening game of the World Series here tomorrow against the Philadelphia Athletics and, in the next breath, scornfully demanded to know "what all this secrecy is about" concerning whom the A's will pitch for.

"I'm going to beat them A's," said Grimes, with sublime confidence. "All we've got to do is to watch three players—Simmons, Foxe and Conner. They have got to watch him. If I can't handle this team I'm ready for the old man's home."

Grimes was standing in the lobby of the downtown hotel at which the careers and dealing Red Birds are quartered. Boston wants the scores of the match will be printed in papers throughout the country.

BIG QUESTION MARK OF WORLD SERIES

ROBERT MOSES "LEFTY" GROVE, who won 27 games for the A's this season, is the big question mark of the world series which starts tomorrow. Will this great southpaw, who hurled only a few innings and didn't start a game against the Cubs last Fall, pitch the opener against the St. Louis Cardinals on the morrow? If he does and is beaten, will he be of any use to the Macks thereafter? If he doesn't hurt the opener, will he

start one of the other games or again be saved to finish up? Why wasn't he started last year? Why isn't he certain to be started this year? Is it because he is temperamental as well as great and Connie Mack fears that he will collapse if he finds the going hard? Or is it because Mack figures he is of more value to the team finishing up close games? If the fans have the answers to these questions, they would feel a lot more certain about what is to happen when the umpire yells "Play Ball!"

Series Facts and Figures

(By the Associated Press)
Cincinnati—Philadelphia Athletics, champions of the American League, and St. Louis Cardinals, champions of the National League. Schedule—First two games, October 1 and 2, at Shibe Park, Philadelphia; third, fourth and fifth games at Sportsman's Park, St. Louis; October 6, 7 and 8, sixth and seventh, if necessary, at Shibe Park, October 9 and 10. All games at 1:15 p. m., standard time (Eastern at St. Louis). Probable opening game: Heider—Grove and Cookman, Athletics; Grimes and Maclean for Cardinals.

Suburban League Meeting Tonight

Coaches of the Suburban League will hold their annual meeting tonight and meeting tonight at the Hotel Cambridge. Cambridge is the headquarters of the Suburban League. The meeting will be held at the Hotel Cambridge, Cambridge, Mass. The meeting will be held at the Hotel Cambridge, Cambridge, Mass. The meeting will be held at the Hotel Cambridge, Cambridge, Mass.

Williams Squad in First Secret Drill

Williamstown, Sept. 30—Coach Charles Caldwell of the Williams football team held secret practice for the first time this season here today. The team is still in the closet, and the practice was conducted chiefly of signal drills.

Colonels Win 5th Game of Series, 14-7

Louisville, Ky., Sept. 30 (UP)—The Louisville Colonels crept up a game on the Rochester Red Wings by taking the fifth game of the Little World Series, 14 to 7. The Red Wings are still ahead, three games to two, however, and have closed down. The game was connected with the team barred from St. Louis. The game was connected with the team barred from St. Louis.

Miss Stebbins Wins Medal at Brae Burn

Frances Stebbins, runner-up in the women's state championship two years ago, won the medal in the qualifying round of the annual Brae Burn women's club championship by scoring an even 50 on a windy course. The leader's margin was five strokes on Mrs. S. Z. Bentley, who finished in second position with 55. The remaining women to break 100 strokes and qualify safely in the title fight included Mrs. C. G. Newton with 86, Mrs. Dorcas Wright at 88 and Mrs. W. C. Johnson with 92.

Boxing Cloud Hovers Rosenbloom to Draw

Durham, N. C., Sept. 30 (AP)—Maxie Rosenbloom, world's lightweight champion, was here today by fighting Bobo, Birmingham, Ala. Rosenbloom is a 30-round non-title fight.

Gardner to Stay Burlington, Vt., Sept. 30—Larry Gardner has been reappointed to his position at Vermont University. He recently entered business at Bridgeport, Ct., but will return here to greet the diamond candidates.

American to Give Series Results

The Boston Evening American has provided special telephone for those who want to follow the progress of the World Series games between the Cardinals and Athletics. Boston may be heard by phoning Haymarket 6026, 6933, 6922 and 6923. These numbers will be the regular number of the Boston Evening American.

PHILADELPHIA OPENER

By JOE CASHMAN

Philadelphia, Pa., Sept. 30—There was no World Series loitering just around the corner when Philadelphia was christened Sippy Town.

The eve of the opening title clash between the native Athletics American League and world champions and the St. Louis Cardinals National League pretenders is the theme, finds this normally dull and peaceful village in a state of high excitement.

Bonus, politics and all else except that game on the morrow have been forgotten. Nothing else is thought of but the series.

The A's 5 to 3 favorites to retain the world's title and if Robert Moore faces Earl Hugh Grimes in the first encounter, the wagerer is 2 to 1 that the Mackies' mound will outpitch the scrum into submission.

Hundreds Camp at Park to Buy Tickets

As early as last Saturday night, lines were forming on the right side of the city and today hundreds are standing in file on a street of getting much as a man the better air air thrown out at one time from the right side of the city. The "open" side of the street is the one that makes it necessary for them to offer substantial prices for tickets while thousands of visitors from north, south, east and west are proudly saying the proper details.

World Series play was a grander more than a quarter-century. Baseball power was never needed for that but the crowd would be taken care of in the demands of home fans have been filled and that no ticket would fall into the hands of "chances."

It should be but it center has been yet, and probably the number of war correspondents on the scene indicate that the pointers throughout the country disagree slightly with those who claim that baseball is losing its popularity.

There were many more as the scene about writers, in plan, everyday scribbles. The number of the enthusiastic thousands that are milling and swirling about prove that interest in the season game warrants all that going to be written about the coming series.

The reporter, as is their habit, as well as their business, are going to figure out which club is gamblers offer 5 to 3 that A's will win.

The gamblers, who must be right, say, say the Athletics, and they will put up five dollars of the money against three of yours if you feel like disagreeing with them. The majority of the writers feel the same way.

The truth of the matter, as we see it, is that there are several reasons for picking the Cards as only ones for naming the A's. The Cards, in many respects, resemble the Braves of '14 and you should remember what that pitcher did to the Mackies of 1911.

The St. Louis drive was quite as spectacular as was that of the old Hub outfit, but they overcame a handicap of 22 games in much faster time than the Tribe did the series.

And it's mighty hard to stop an inspired team that's rolling on high as the Cards have been for the past six weeks and ought to be through out the series.

BOTTOMLEY BANKS ON HURLERS

LETTERS FROM READERS

Letters from readers on current subjects are welcomed. Letters should not exceed 250 words in length, should be written on one side of the paper, and must bear the writer's name. Names will be omitted in publication, if requested. Address Editor, Boston American, 5 Winthrop sq.

SOMETHING TO THINK ABOUT

Editor Boston American:

This country contains about 123,000,000 people. We have more or less common sense. Everyone possesses some ability, some power and some common sense.

With these political matters bugging constantly around us, we are often helpless. We are pulled around by the nose by a few who have gifts—or think they have—for leadership. We are surrounded by bureaucrats, working hard and for the common people's votes. They put all over us before election. But when it is over the word with them is "GOAT."

There are many worthy men in public position today, but there are others who can never shine in their own light. They have little or no natural ability, but are bigging it.

Now what is the outcome of this, if not distrust of many who venture into public positions. They are incapable. The average man squirms when he hears of their ambitions.

America today has no great leader. Hence these fears!

R. N. KELLY.

Sports Ambassadors

Suggested for World

Editor Boston American:

Don't you think the following suggestion rather good and worth consideration?

The best ambassadors from European countries are the Mayor Ballers and the Thomas Liptons. They carry back to their own countries a greater quantity of goodwill, and much better understanding of our people on this side of the pond.

Why not have many more celebrations and contests in sports. Invite other mayors and those anxious to compete for new laurels.

The expense would be a trifle in comparison to the cost of armament conferences, and our own prestige would be of a higher standard, and there would be a kinder feeling between governments and private individuals, which would eventually lead to a better understanding between nations.

Each would return to his own country, lauding the good qualities of the American people. They would tell their countrymen of the friendly feeling and kindness extended to them here, and "Hands Across the Sea" would become a reality and not merely a saying.

The friendships made on this side would result in Americans returning the visits and thus an amicable cordiality would be formed, and there would be no further need for conferences—what they are now trying to accomplish would be attained by these affairs and visits.

It is an understanding between the people of each country that we need, for they have the biggest say in forming their respective governments. There would naturally follow more inclination to discuss with each other, and to work out a better understanding, as there would be no more war.

HILDA SCHOLZ.

Practice Band

Suggested for Drummer

To G. H. F.

As a drummer by profession I offer this suggestion to your office friend, for the peace of his neighbors.

Ask him to get a practice pad. It is a board covered with felt or rubber. If he uses this it cannot be heard outside of his room. If he continues to practice on his drum he will tire of the instrument, and it might ruin his popularity in his district.

LINCOLN O. MILTON.

Women Talk Issue

With Advent Preacher

Editor Boston American:

Can women keep silent? A youthful preacher in the Church of the Advent, Boston, this summer, asserted women were not eligible for many vocations because they talked too much.

The indignation this aroused kept settling in me to such a degree, that I concluded to take a vacation. I have thought it all over. I have talked it over with other women.

In a calm collected state of

mind after vacation I may be pardoned for bringing it up again, but we women only regard such a remark as a fine bit. It really does not mean anything.

Keeping silent does not limit one's life. I have known men talk so much in private conversation that they're tired of an ear clock and get off half cooked.

But please try out of the pulpit ministrations these allusions to women. Paul the apostle stated this radical, but he was a grass widower.

MRS. T. Y. YOUNG

Raps "Job Hogs" on

City's Payroll

Editor Boston American:

What can we do and what are we doing about those who hold down two jobs?

There are employees of the City of Boston working for the city and also for some private concern.

Such is hogging it all to the exclusion of the unemployed, who are seeking work.

No employee working on day jobs at the Boston Public Library should be permitted to work evenings.

Another shift other than "re" workers should be given that work.

I would help to relieve the unemployment situation. Many manufacturing and mercantile concerns have started in the right direction by discharging and hiring married women whose husbands are working.

Such is ethical right. The husband, not the wife, is the breadwinner.

Give work to those who need it.

MAX HENRY NEWMAN.

American Thanked for

Aid to Department's

Editor Boston American:

I wish to extend to you my sincere thanks for the splendid assistance which you gave the Boston fire department and the band through publicity in the columns of your paper.

Three months of preparation resulted in the presentation of the band to the public on Founders' Day, September 17, 1930.

The effect of organizing the band in the department has already raised the morale of the members of the Boston fire department. The member have shown an entirely different interest in their work since they have found a new interest to occupy their minds and attention.

The increased morale will result in greater efficiency of body and mind, with the result that the standard of the department will be so raised that it will undoubtedly mean a substantial reduction in the fire losses and a consequent reduction in the insurance rates.

Assuring you again of my appreciation of the valuable service rendered by the Boston American, I remain

EDWARD P. McLAUGHLIN.

COOK 'N' COOS

Copyright, 1930, King Features Syndicate, Inc.

At present there are two kinds of people—those who need to find greater satisfaction in work, and those who need to find greater satisfaction out of it.

Milestone on the path to civilization—
CHICAGO—Terry Druggan and Frankie Laine, whose names have been prominently linked with beer running, have obtained permission to build a milk distributing plant.

Now let's see some of these fresh young kids refuse to drink their milk!

The bright of something or other would be for the big shots to mingle into the interior decorating and bath tiling racket.

"And the long arm of the law," says Rev. Wisley, "is either paid, limp or in a sling."

"It is my ambition," says Tom J. Geraghty, "to be a caddy on a Tom Thumb golf course. Just carry the pencil."

NATURE NOTE
(With the Least Profoundity)

If with a little more of tact Mosquitoes worked, they'd not be smacked—
So often, yes, without the buzz Less frequently they would be wapped.

But I suppose mosquitoes are, like human insects, under par, And would not, even in their stinking, Take safety in exchange for talking.

THIS IS AN AGE OF WONDERS

And now comes the Mosley Polding Bath, Tub—enjoyment for the whole family! Lined with either copper or zinc, the Mosley heats the water at the bath as you want it. NO WATER TO CARRY except what you pour into the artistic concealed reservoir during a shower. The Mosley is on casters and can be wheeled to any part of the house. When it is in use it folds up and becomes a beautiful cabinet, with mirror and drawer handles. For further information write, wire or wig wag to Horace Walpole Frisby in care of Washington Monument, Washington, D. C. Free demonstrations. Choice territory open to all!

Adam Scifflaw's Journal

Have not with in my dream, these many weeks because I did suffer myself to sample on my own hands (while bending to hooken sock suspender in a great press of people) so that I but lately come to scaven with my left hand and even so I find not much blessing in it as the characters made with still have so rapid as that they will not pose, or look kindling to the mind of man, and then I know not, after 'tis performed, what the texture of my foot wear, whether it be good or evil.

NEW YORK
STOCKS FINISH CLOSE TO
Lows FOR SESSION

New York, Sept. 30—Share prices broke sharply in today's stock market under the weight of the heaviest selling movement since June, according to a client report from a prominent stock exchange room late in the session of the failure of J. A. Blato & Co. to pay \$4,837,500 for 100,000 shares, and a large list of issues tumbled 2 to 10 points, with a few erratic stocks recording wider

RECOVERY COES After three weeks' declining prices, the market recovered a little after the Sieto failure was announced, however, for shorts covered on the theory that the bed man was out of the way.

Another New York Stock Exchange house which closed its doors was J. J. Loftus & Co. of Los Angeles.

After three weeks' declining prices, the market recovered a little after the Sieto failure was announced, however, for shorts covered on the theory that the bed man was out of the way.

Liquidation as much of it appeared to be sales of stock held outright, or as collateral against loans, rather than shares weakly held in marginal accounts. Liquidation of such stock, naturally, would

Vague rumors that some might be in financial difficulty

Before the flood of selling in the middle of the afternoon, strong efforts were made to support the market, and temporary gains of one to three points were recorded.

MANY NEW LOWS

A long list of shares reached new low ground for the year, including General Electric and Radio. The late upturn was largely confined to some of the hotel stocks, and the list again headed downward in the closing transactions. The closing tone was distinctly heavy.

U. S. Steel was off only about a point, after having sold down 2. A rally in American Can failed to hold, and it closed near the bottom, off 3 points.

Radio sagged point to a new low, but closed steady. Radioactive Vanadium and Columbian Carbide were off to a 4-cent drop, 10, a new low, and closed off 8¢. Among erratic issues, Diamond Match lost 16 points, and Detroit Edison 21.

Prices were hammered down

Chicago, Sept. 30.—A rise of 3-8-8 in September corn featured a higher or close in grains here today. Other deliveries of corn were 2 to 2½¢ higher. Wheat and oats finished ½ to 1c up, while rye ruled ¼ to 1½¢ higher.
